प्रस्तावना

राष्ट्रीय सांख्यिकीय कार्यालय (एनएसओ) द्वारा जनवरी 2019 में पहली बार देश में व्यक्तियों द्वारा की जाने वाली गतिविधियों और इन गतिविधियों में प्रयुक्त समय के संबंध में जानकारी एकत्र करने के लिए समय के उपयोग का सर्वेक्षण (टीयूएस) प्रारम्भ किया गया । जनवरी - दिसंबर 2019 के दौरान 6 वर्ष तथा उससे अधिक आयु के व्यक्तियों के संबंध में उनके परिवारों से समय के उपयोग संबंधी जानकारी एकत्र की गई। समय के उपयोग का सर्वेक्षण(टीयूएस) द्वारा भुगतान गतिविधियों, गैर भुगतान देखभाल गतिविधियों, अवैतनिक स्वयंसेवी कार्य, अवैतनिक घरेलू सेवा उत्पादन गतिविधियाँ, शिक्षण, सामाजीकरण, अवकाश गतिविधियाँ एवं स्व-देखभाल इत्यादि गतिविधियों में व्यक्तियों की भागीदारी तथा इस संबंध में लगने वाले समय का आकलन किया गया ।

यह रिपोर्ट ग्रामीण और शहरी दोनों क्षेत्रों में लिंग, आयु, आदि के विभिन्न विसंयोजन स्तरों पर समय उपयोग के संकेतकों का अनुमान उपलब्ध करवाती है। इनका उपयोग विभिन्न विभागों द्वारा नियोजन, नीति निर्माण, निर्णय समर्थन और अन्य सांख्यिकीय अभ्यासों के लिए तथा सरकार के मंत्रालयों, अन्य संगठनों, शिक्षाविदों, शोधकर्ताओं और विद्वानों द्वारा इनपुट के रूप में किया जा सकता है ।

राष्ट्रीय सांख्यिकीय कार्यालय (एनएसओ) के सर्वेक्षण अभिकल्प एवं अनुसंधान प्रभाग (एसडीआरडी) ने समय के उपयोग का सर्वेक्षण और इस रिपोर्ट को तैयार करने के लिए सर्वेक्षण पद्धति का विकास किया। क्षेत्र संकार्य प्रभाग (एफओडी) द्वारा क्षेत्रीय कार्य का निष्पादन किया गया, जबकि समंक विधायन और सारणीकरण का कार्य समंक गुणवत्ता और आश्वासन प्रभाग (डीक्यूएडी) द्वारा किया गया। सर्वेक्षण समन्वय प्रभाग (एससीडी) द्वारा सर्वेक्षण से संबंधित विभिन्न गतिविधियों का समन्वय किया गया।

सर्वेक्षण के विभिन्न चरणों में उनके मूल्यवान मार्गदर्शन के लिए मैं श्रम बल सांख्यिकी संबंधी स्थायी समिति (एससीएलएफएस), आर्थिक सांख्यिकी संबंधी स्थायी समिति (एससीइएस) और राष्ट्रीय सांख्यिकीय आयोग (एनएससी) के सदस्यों के प्रति हार्दिक आभार प्रकट करता हूँ । मैं इस रिपोर्ट को तैयार करने में शामिल एनएसओ के विभिन्न प्रभागों के अधिकारियों द्वारा किए गए प्रयासों के लिए उनकी भी सराहना करता हूं। मुझे आशा है कि यह रिपोर्ट योजनाकारों, नीति निर्माताओं, शिक्षाविदों और शोधकर्ताओं के लिए उपयोगी सिद्ध होगी।

PREFACE

The National Statistical Office (NSO) launched the first Time Use Survey (TUS) in the country in January 2019 to collect information on the activities that are performed by the population and the duration of time for which such activities are performed. The information on time use was collected for persons of age 6 years and above from the households during January – December 2019. The TUS has measured participation and time spent by the persons in paid activities, unpaid caregiving activities, unpaid volunteer work, unpaid domestic service producing activities, learning, socializing, leisure activities, self-care activities, etc.

This Report provides estimates of indicators of time use in both rural and urban areas with different levels of disaggregation like gender, age, etc. These can be used for planning, policy formulation, decision support and as input for further statistical exercises by various Departments and Ministries of the Government, other organisations, academicians, researchers and scholars.

The Survey Design and Research Division (SDRD) of NSO undertook the development of survey methodology for the Time Use Survey and the preparation of this report. The field work was carried out by the Field Operations Division (FOD) while the data processing and tabulation work was done by the Data Quality and Assurance Division (DQAD). The Survey Coordination Division (SCD) coordinated various activities pertaining to the survey.

I am highly thankful to the members of the Standing Committee on Labour Force Statistics (SCLFS), Standing Committee on Economic Statistics (SCES) and National Statistical Commission (NSC) for their valuable guidance at various stages of the survey. I also place on record my appreciation for the efforts made by officers of different Divisions of the NSO involved in the preparation of this report. I hope this report will be found useful by planners, policy makers, academicians and researchers.

New Delhi
September 2020

(Asit Kumar Sadhu)
Director General (NSS)

मुख्यबातें

सर्वेक्षण की अवधि

- "समय के उपयोग का सर्वेक्षण" राष्ट्रीय सांख्यिकीय कार्यालय द्वारा संचालित इस तरह का प्रथम सर्वेक्षण है।
- यह सर्वेक्षण जनवरी 2019 से दिसम्बर 2019 की अवधि के दौरान संचालित किया गया।

सर्वेक्षण की व्याप्ति

- यह सर्वेक्षण प्रथम चरण इकाई (FSU) में 9,945 (5,947 ग्रामीण क्षेत्रों में एंव 3,998 नगरीय क्षेत्रों में) में फैला हुआ था।
- यह 1,38,799 परिवारों (ग्रामीण : 82,897 और नगरीय 55,902) में व्याप्त था।
- चयनित परिवारों के 6 वर्ष एवं उससे अधिक उम्र के प्रत्येक सदस्य की अन्तर्वीक्षा की गई।
- 6 वर्ष और उससे अधिक उम्र के 4,47,250 व्यक्तियों (ग्रामीण 2,73,195 एवं नगरीय 1,74,055) से सूचना संग्रहित की गई ।
- यह सर्वेक्षण अंडमान एंव निकोबार द्वीप समूहों के ग्रामीण क्षेत्रों, जहां पहुँचना कठिन था को छोड़कर संपूर्ण भारतीय संघ में व्याप्त था।

आँकड़ों का सन्दर्भ

- समय के उपयोग का आँकड़ा वैयक्तिक अन्तर्वीक्षा पद्धति के माध्यम से संग्रहित किया गया।
- समय के उपयोग पर संग्रहित सूचना, अन्तर्वीक्षा के एक दिन पहले के 4.00 बजे (पूर्वा0) सें आरंभ करके अन्तर्वीक्षा के दिन 4.00 बजे (पूर्वा0) 24 घंटे की अवधि तक आच्छादित थी ।

परिणामों की प्रस्तुति

- समय का उपयोग पर प्रस्तुत परिणाम 6 वर्ष एवं उससे अधिक उम्र के व्यक्तियों पर आधारित है।
- विभिन्न गतिविधियों में व्यतीत समय के उपयोग का प्रतिदिन का आकलन, विभिन्न गतिविधियों में सहभागिता को ध्यान में रखकर किया गया।
- एक दिन में प्रति व्यक्ति का उपलब्ध कुल 1440 मिनट के समय का विभिन्न गतिविधियों मे आवंटन को समझने के लिए, समय के उपयोग के कुछ आकलन सभी व्यक्तियों को संज्ञान में लेते हुए प्रस्तुत किया गया है चाहे वे इन गतिविधियों मे भाग लिए हो या नहीं।
- मुख्य बातों में, निर्धारित समय में केवल प्रमुख गतिविधि के स्थान पर सभी गतिविधियों पर बिचार करते हुए परिणाम प्रस्तुत किया गया है।

कुछ प्राक्कलन की परिभाषा

सहभागिता दर

- किसी भी गतिविधि में एक दिन में सहभागिता दर को संदर्भ अवधि के 24 घंटों के दौरान उस गतिविधि को करने वाले व्यक्तियों के प्रतिशत के रूप में परिभाषित किया गया है।
- गतिविधि 'A' में सहभागिता दर =

$$\frac{\text{गतिविधि 'A' में भाग लेने वाले व्यक्तियों की संख्या}}{\text{व्यक्तियों की कुल संख्या}} * 100$$

प्रति प्रतिभागी एक दिन में खर्च औसत समय का प्राक्कलन

- किसी भी गतिविधि के लिए एक दिन में प्रति प्रतिभागी द्वारा खर्च औसत समय के प्राक्कलन की गणना उन लोगों पर बिचार करते हुए की गई जिन्होंने गतिविधि मे भाग लिया।
- एक दिन मे विभिन्न गतिविधियों में औसत समय का प्राक्कलन केवल गतिविधियों के प्रतिभागियों को देखते हुए दिन के 1440 मिनट में नहीं जुड़ेगा।
- इन प्राक्कलनों को प्रति प्रतिभागी एक दिन में खर्च औसत समय के रुप में संदर्भित किया जाता है
- प्रति प्रतिभागी गतिविधि 'A' में खर्च औसत समय =

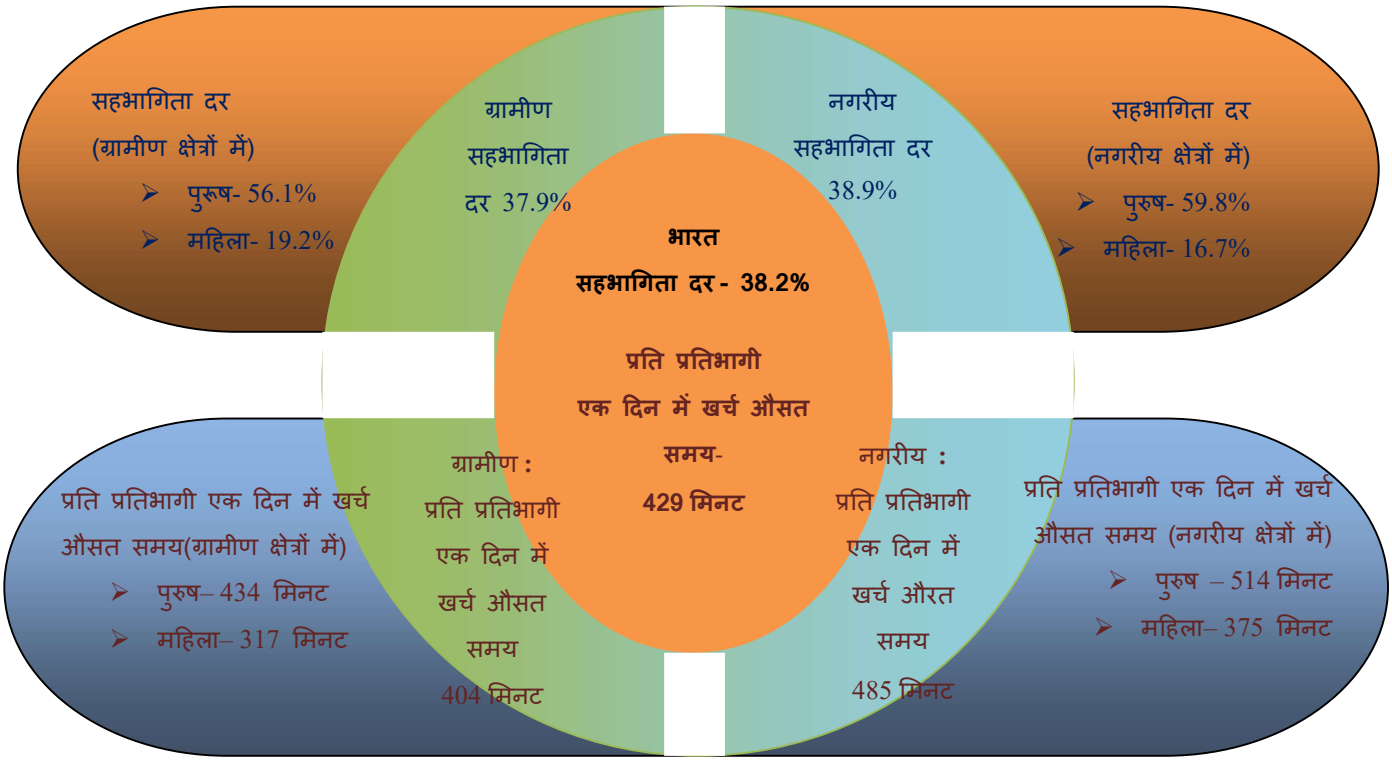
$$\frac{\text{प्रतिभागियों द्वारा गतिविधि 'A' में खर्च कुल समय}}{\text{गतिविधि 'A' में भाग लेने वाले व्यक्तियों की कुल संख्या}}$$

प्रति व्यक्ति एक दिन में खर्च औसत समय का प्राक्कलन

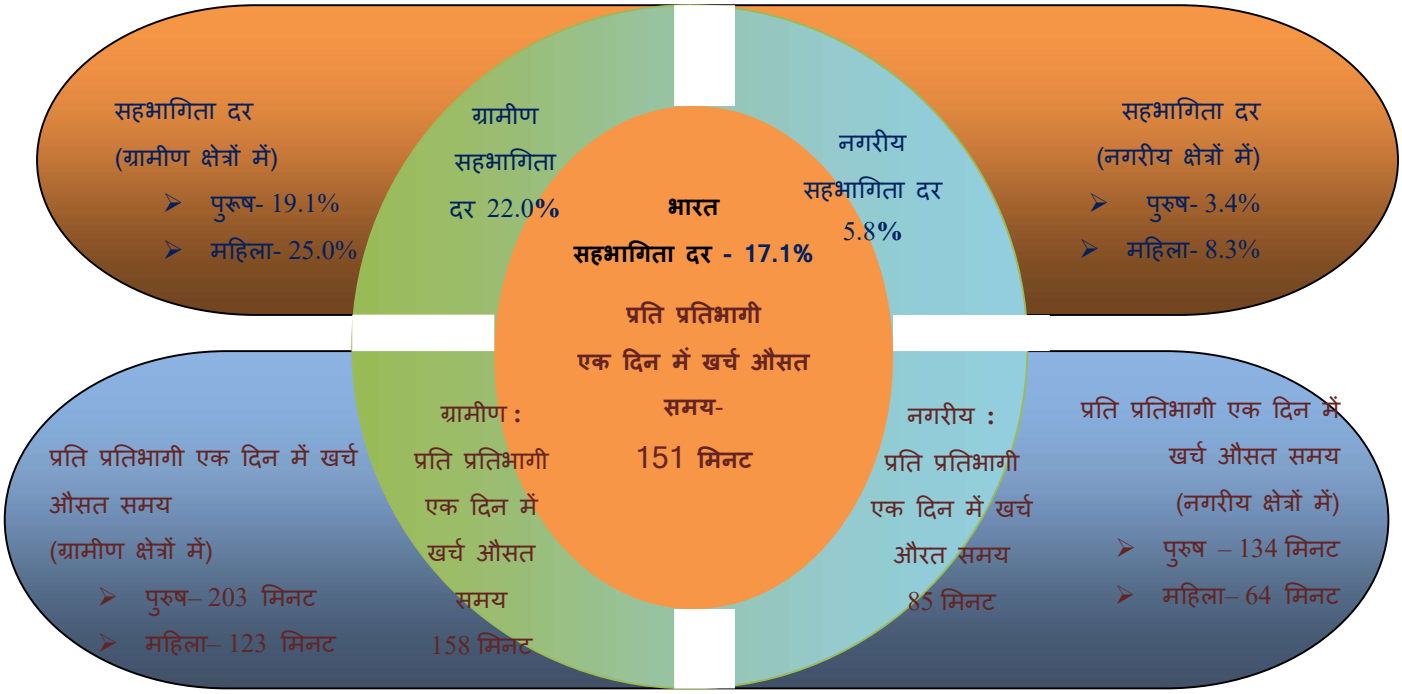
- किसी भी गतिविधि के लिए एक दिन में प्रति व्यक्ति द्वारा खर्च औसत समय के प्राक्कलन की गणना उन सभी व्यक्तियों पर विचार करते हुए की गई चाहे वे गतिविधि में भाग लिए हों या नहीं
- इस दृष्टिकोण से विभिन्न गतिविधियों में प्रति व्यक्ति एक दिन के 1440 मिनट कुल समय का वितरण किया जा सकता है और एक दिन के 1440 मिनट के कुल समय में विभिन्न गतिविधियों के प्रतिशत शेयर की गणना की जा सकती है।
- इन प्राक्कलनों को प्रति व्यक्ति एक दिन में खर्च औसत समय के रुप में संदर्भित किया जा सकता है।
- प्रति व्यक्ति गतिविधि 'A' में खर्च औसत समय =

$$\frac{\text{प्रतिभागियों द्वारा गतिविधि 'A' में खर्च कुल समय}}{\text{व्यक्तियों की कुल संख्या}}$$

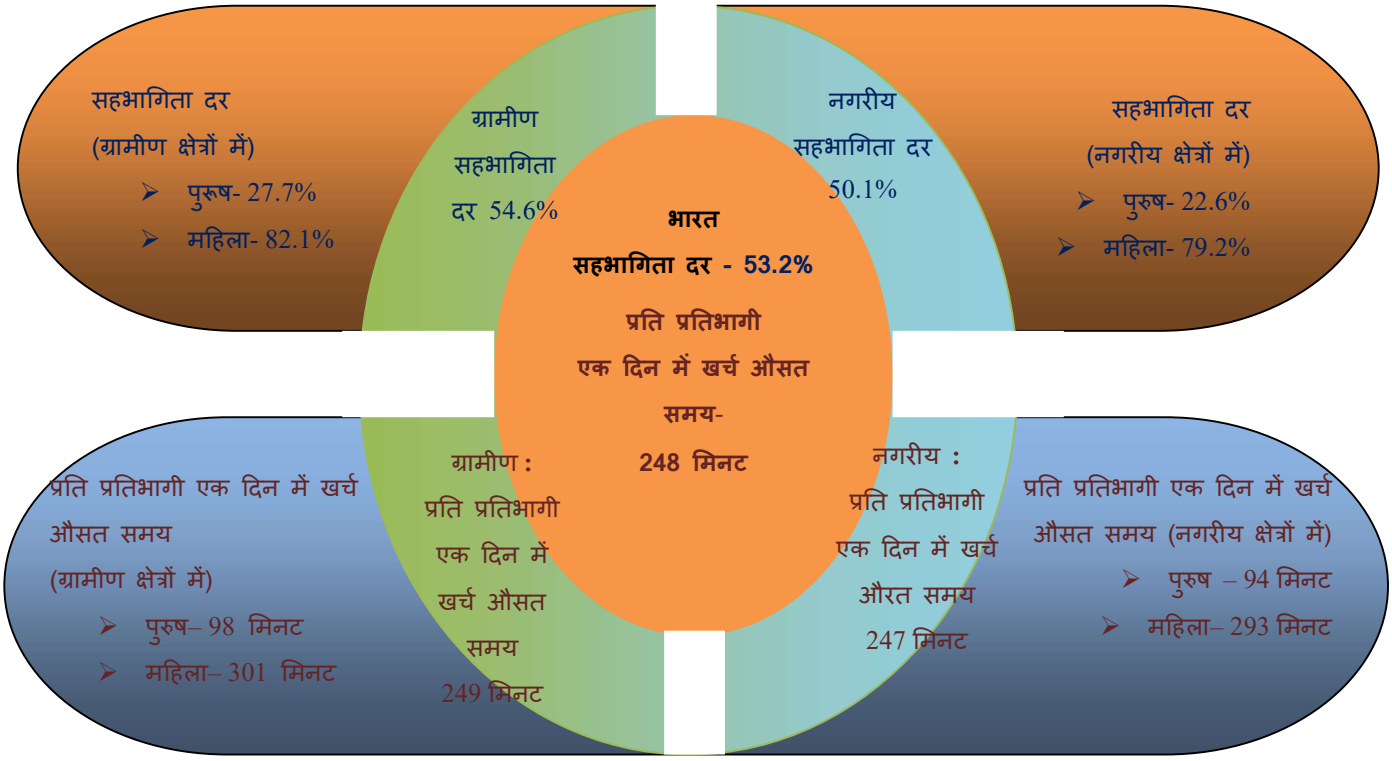
A. रोजगार और सम्बन्धित गतिविधियों में 6 वर्ष एवं उससे अधिक उम्र के व्यक्तियों की सहभागिता और इन गतिविधियों में प्रति प्रतिभागी द्वारा एक दिन में खर्च किया गया समय



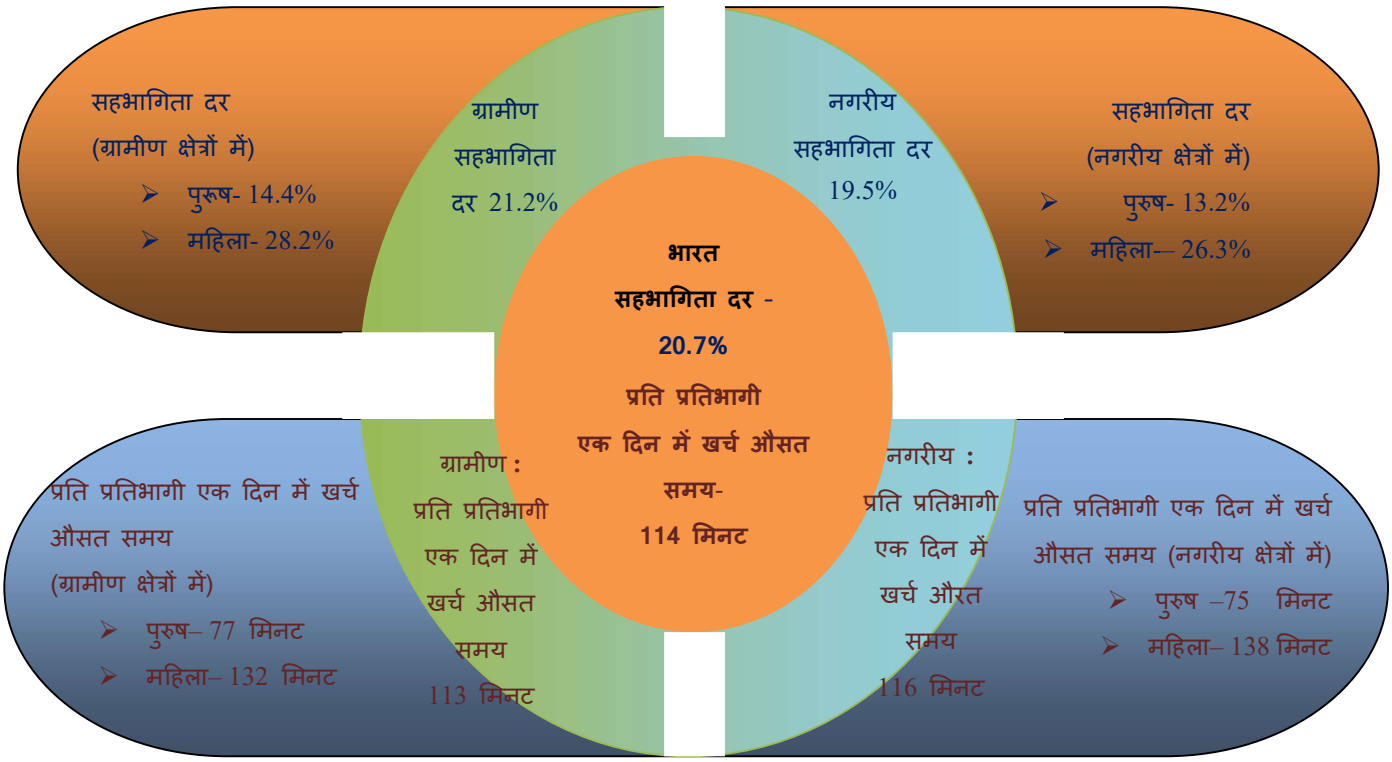
B. स्वंय के अंतिम उपयोग के लिए वस्तुओ के उत्पादन में 6 वर्ष एवं उससे अधिक उम्र के व्यक्तियों की सहभागिता और इन गतिविधियों मे प्रति प्रतिभागी द्वारा एक दिन में खर्च किया गया समय



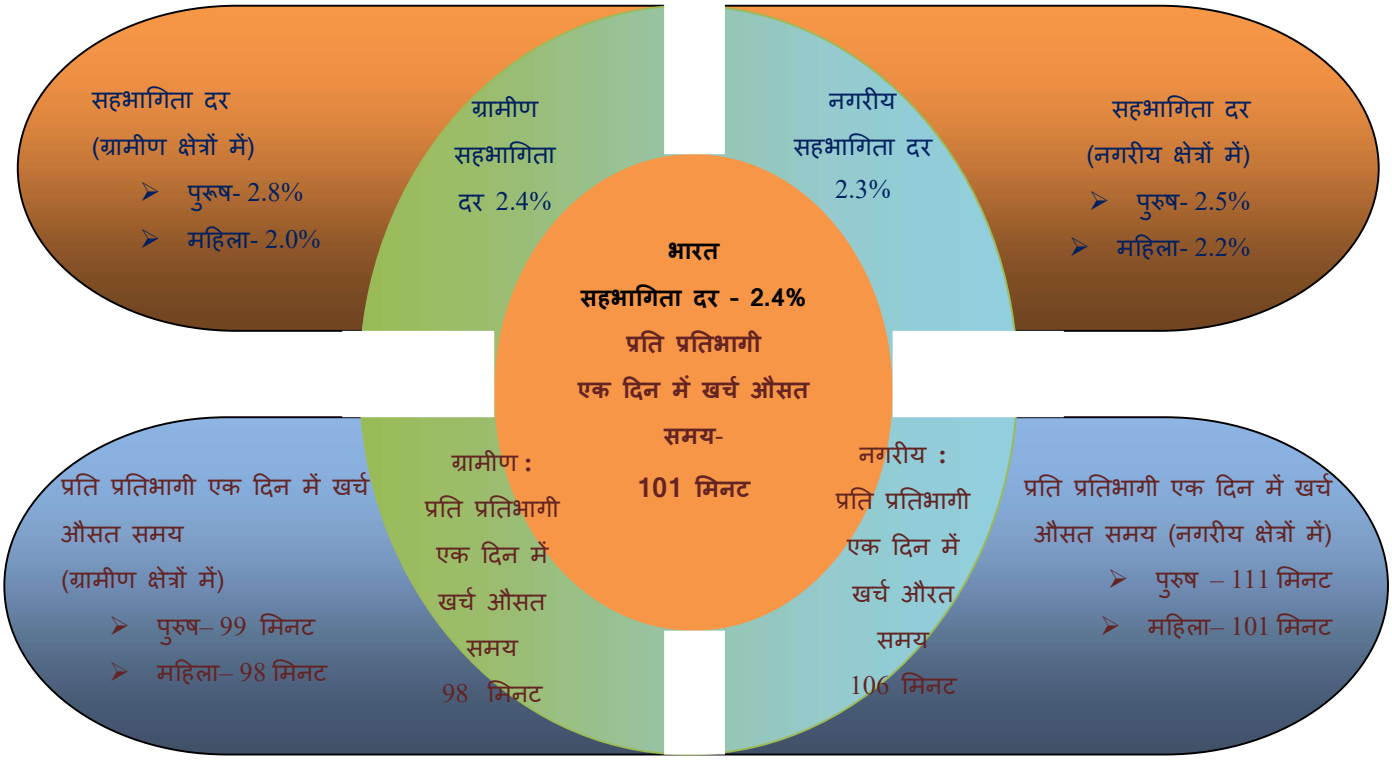
C. परिवार के सदस्यों के लिए अदत्त घरेलु सेवाऐं में 6 वर्ष एवं उससे अधिक उम्र के पारिवार के सदस्यों की सहभागिता और इन गतिविधियों में प्रति प्रतिभागी द्वारा एक दिन में खर्च किया गया समय



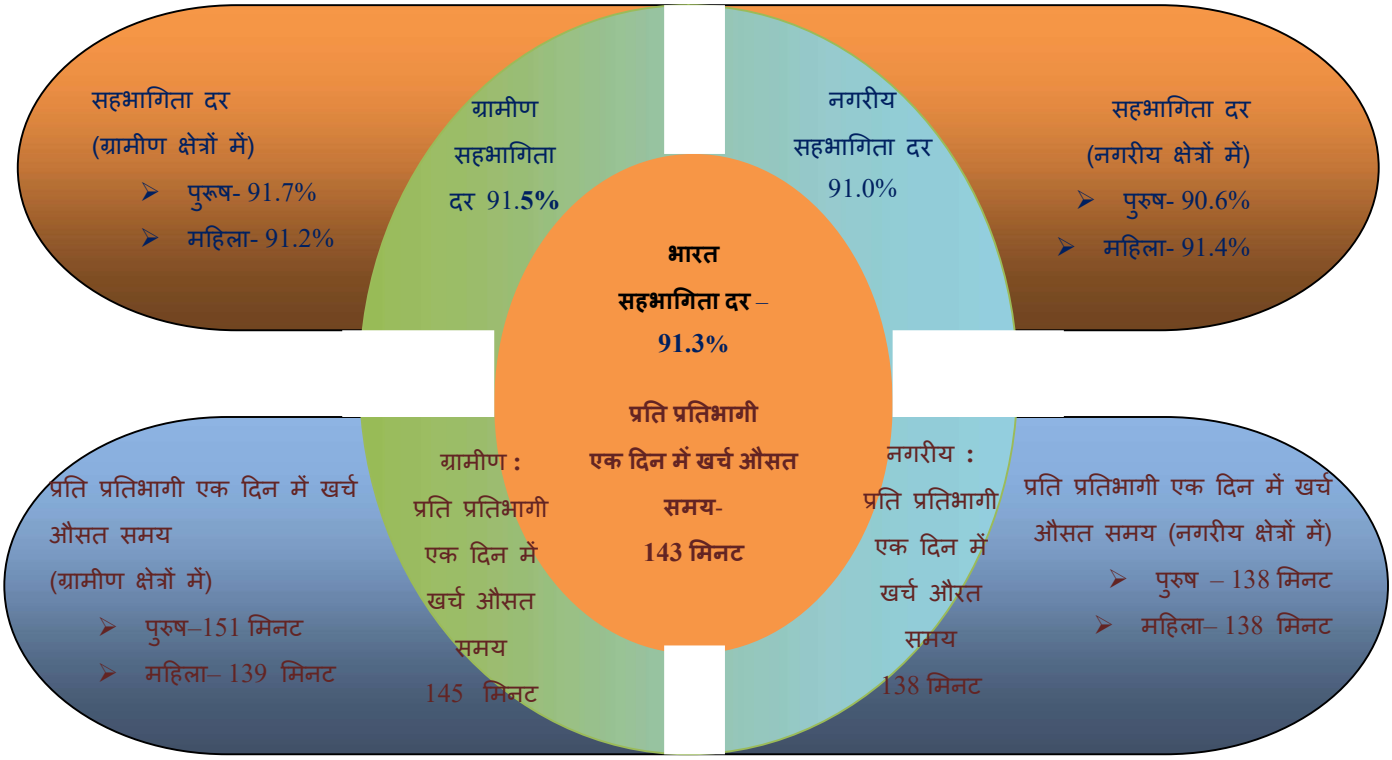
D. परिवार के सदस्यों के लिए देख रेख करने वाली अदत्त सेवाऐं में 6 वर्ष एवं उससे अधिक उम्र के पारिवार के सदस्यों की सहभागिता और इन गतिविधियों में प्रति प्रतिभागी द्वारा एक दिन में खर्च किया गया समय



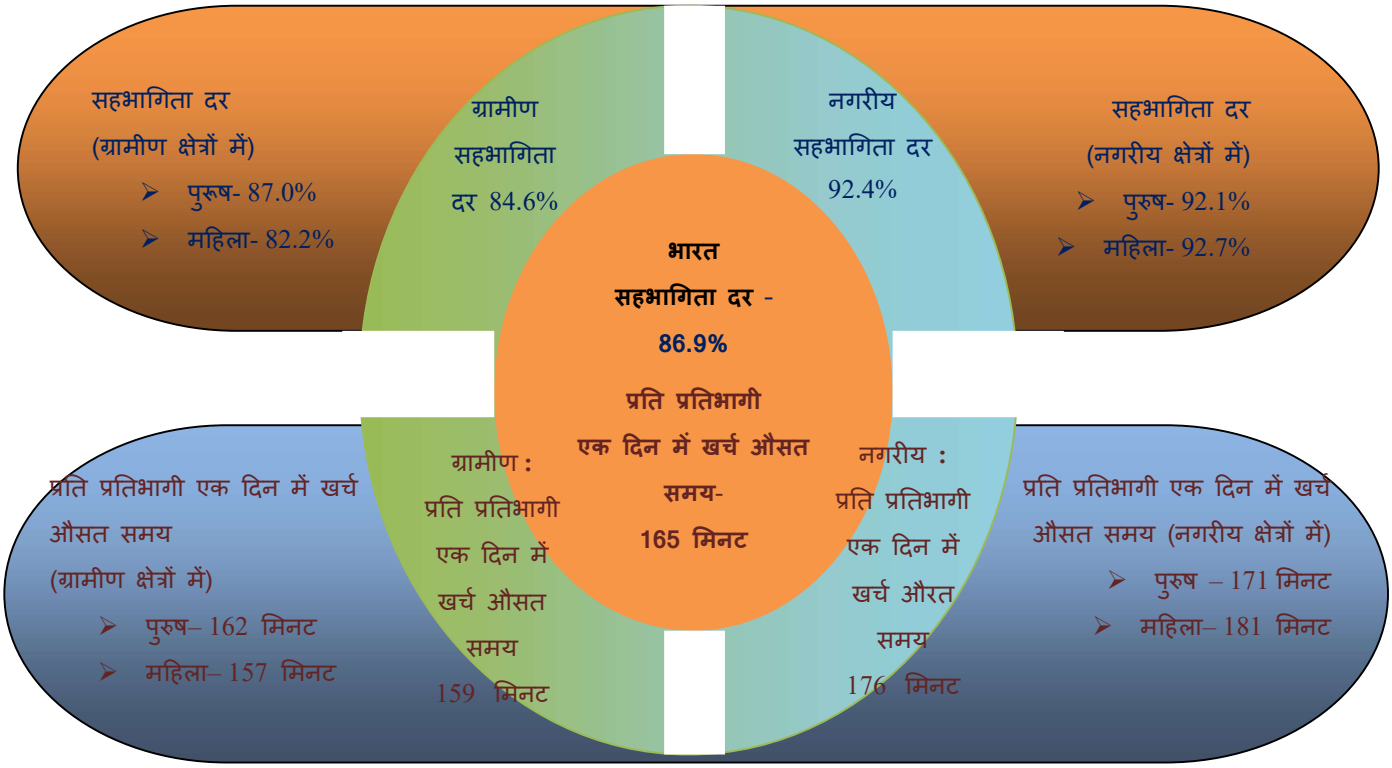
E. अदत्त स्वंय सेवक, प्रशिक्षु एवं अन्य अदत्त कार्य में 6 वर्ष एवं उससे अधिक उम्र के पारिवार के सदस्यों की सहभागिता और इन गतिविधियों में प्रति प्रतिभागी द्वारा एक दिन में खर्च किया गया समय



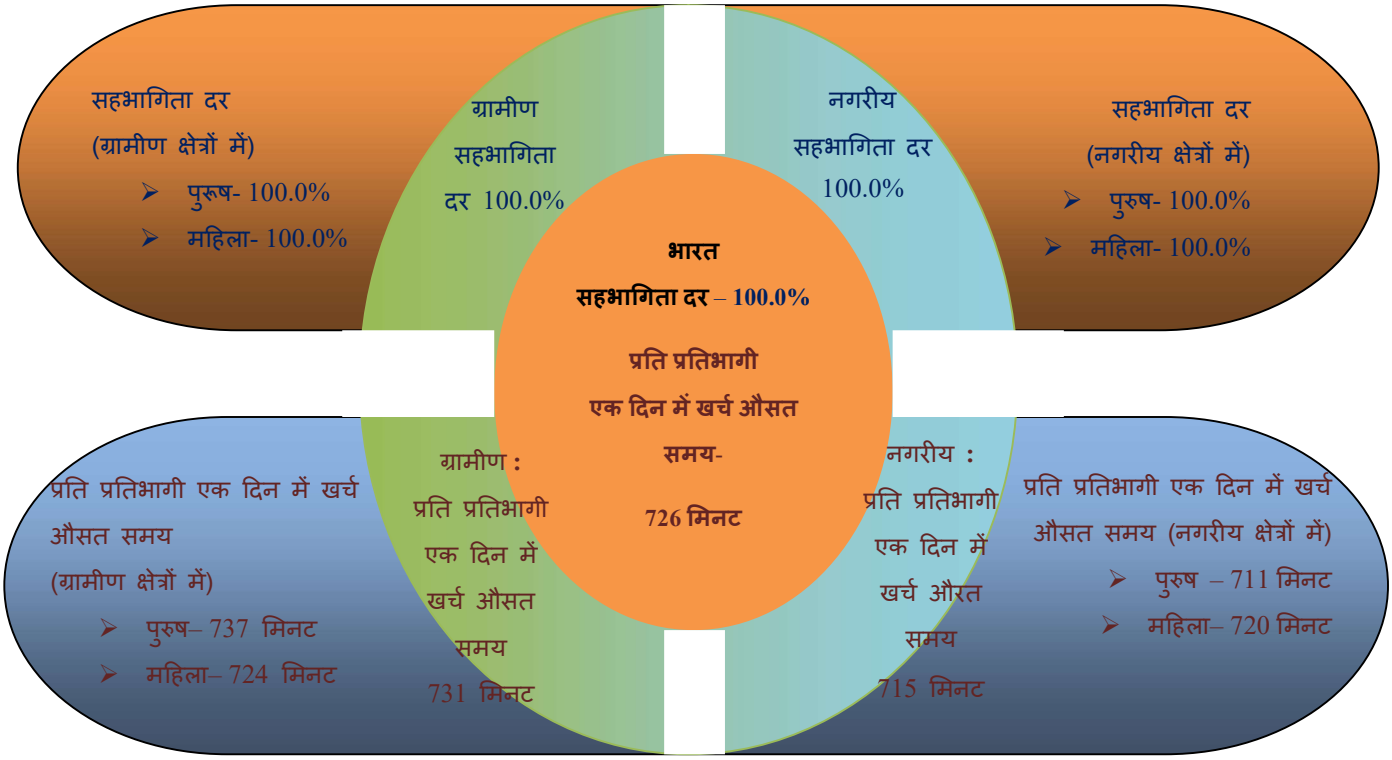
F. समाजीकरण और संचार, सामुदायिक भागीदारी और धार्मिक अभ्यास में 6 वर्ष एवं उससे अधिक उम्र के पारिवार के सदस्यों की सहभागिता और इन गतिविधियों में प्रति प्रतिभागी द्वारा एक दिन में खर्च किया गया समय



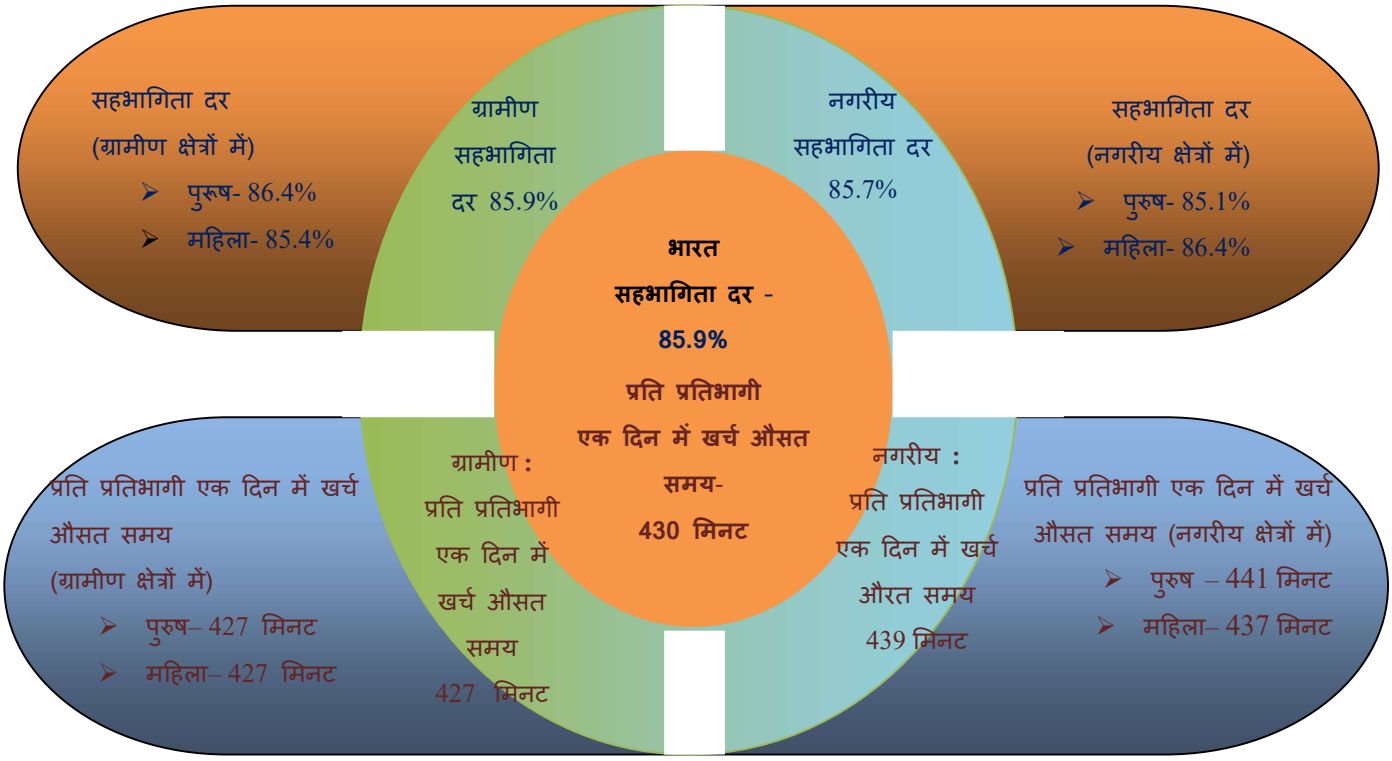
G. संस्कृति, अवकाश, जन-सम्पर्क एवं खेल अभ्यासों में 6 वर्ष एवं उससे अधिक उम्र के परिवार के सदस्यों की सहभागिता एवं इन गतिविधियों में प्रति प्रतिभागी का एक दिन द्वारा खर्च किया गया समय



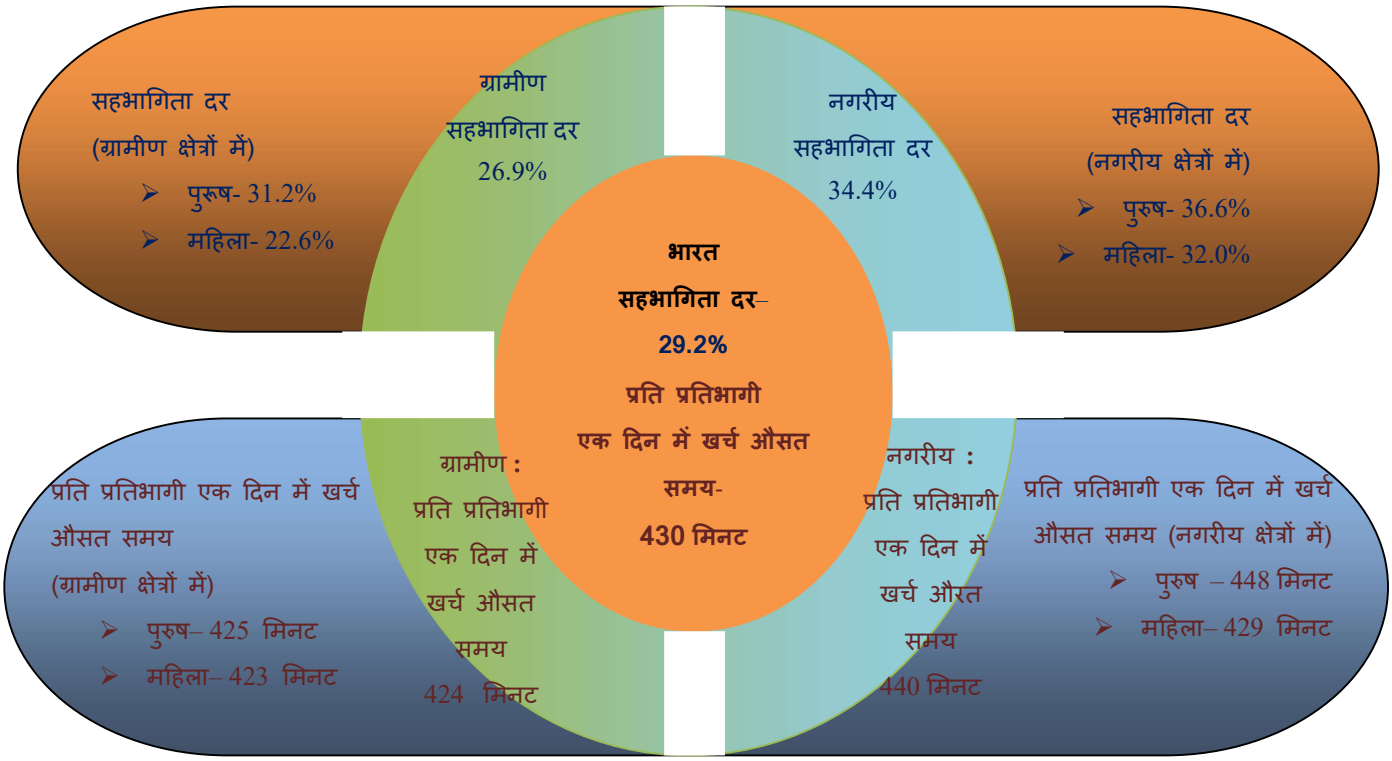
H. स्वंय की देखभाल एवं रख-रखाव में 6 वर्ष एवं उससे अधिक उम्र के परिवार के सदस्यों की सहभागिता एवं इन गतिविधियों मे प्रति प्रतिभागी द्वारा एक दिन में खर्च किया गया समय



I. सीखने की गतिविधियों में 6 - 14 वर्ष के उम्र के व्यक्तियों की सहभागिता और इन गतिविधियों में प्रति प्रतिभागी द्वारा एक दिन में खर्च किया गया समय



J. सीखने की गतिविधियों में 15-29 वर्ष के उम्र के व्यक्तियों की सहभागिता और इन गतिविधियों में प्रति प्रतिभागी द्वारा एक दिन में खर्च किया गया समय



K. अदत्त एवं दत्त गतिविधियों में 6 वर्ष एवं उससे अधिक उम्र के व्यक्तियों की सहभागिता औरइन गतिविधियों में प्रति प्रतिभागी द्वारा एक दिन में खर्च किया गया समय

सहभागिता दर

अदत्त कार्यः

- ग्रामीण पुरूष- 47.8%
- ग्रामीण महिला- 85.0%
- नगरीय पुरूष- 35.1%
- नगरीय महिला- 81.7%

भारत अदत्त गतिविधियां सहभागिता दर 63.6%

भारत दत्त गतिविधियां सहभागिता दर 36.2%

सहभागिता दर

दत्त कार्यः

- ग्रामीण पुरूष- 53.4%
- ग्रामीण महिला- 17.7%
- नगरीय पुरूष-58.1%
- नगरीय महिला- 15.5%

प्रति प्रतिभागी एक दिन में खर्च

औसत समय अदत्त कार्यः

- ग्रामीण पुरूष- 167 मिनट
- ग्रामीण महिला- 373 मिनट
- नगरीय पुरूष- 110 मिनट
- नगरीय महिला- 337 मिनट

भारत अदत्त गतिविधियां प्रति प्रतिभागी एक दिन में खर्च औसत समय 289 मिनट

भारत दत्त गतिविधियां प्रति प्रतिभागी एक दिन में खर्च औसत समय 413 मिनट

प्रति प्रतिभागी एक दिन में खर्च

औसत समय दत्त कार्यः

- ग्रामीण पुरूष- 415 मिनट
- ग्रामीण महिला- 313 मिनट
- नगरीय पुरूष- 486 मिनट

नगरीय महिला- 367 मिनट

L. एक दिन में 6 वर्ष एवं उससे अधिक उम्र के व्यक्तियों का प्रति व्यक्ति अदत्त एवं दत्त गतिविधियों में खर्च समय, चाहे वे इन गतिविधियों मे सहभागी रहे हो या नहीं

एक दिन में प्रति व्यक्ति अदत्त गतिविधियों में खर्च औसत समयः

- ग्रामीण पुरूष- 80 मिनट
- ग्रामीण महिला- 317 मिनट
- नगरीय पुरूष- 39 मिनट
- नगरीय महिला- 276 मिनट

एक दिन में प्रति व्यक्ति दत्त गतिविधियों में खर्च औसत समयः

- ग्रामीण पुरूष- 222 मिनट
- ग्रामीण महिला- 55 मिनट
- नगरीय पुरूष- 282 मिनट
- नगरीय महिला- 57 मिनट

दत्त एवं अदत्त गतिविधियों में एक दिन में खर्च कुल समय में अदत्त गतिविधियों में खर्च समय का प्रतिशत

- ग्रामीण पुरूष- 26.5%
- ग्रामीण महिला- 85.2%
- नगरीय पुरूष- 12.1%
- नगरीय महिला- 82.9%

दत्त एवं अदत्त गतिविधियों में एक दिन में खर्च कुल समय में दत्त गतिविधियों में खर्च समय का प्रतिशत

- ग्रामीण पुरूष- 73.5%
- ग्रामीण महिला- 14.8%
- नगरीय पुरूष- 87.9%
- नगरीय महिला- 17.1%

M. एसएनए उत्पादन एवं नान-एसएनए उत्पादन की गतिविधियों में सहभागिता और इन गतिविधियों मे एक दिन में 6 वर्ष एवं उससे अधिक उम्र के परिवार के सदस्यों का प्रति प्रतिभागी द्वारा खर्च समय

एसएनए उत्पादन गतिविधियों में सहभागिता दर

- ग्रामीण पुरूष- – 64.5%
- ग्रामीण महिला- 38.7%
- नगरीय पुरूष- 60.2%
- नगरीय महिला- 23.1%

भारत एसएनए उत्पादन गतिविधियाँ : सहभागिता दर 48.8%

भारत नान-एसएनए उत्पादन गतिविधियाँ : सहभागिता दर 59.5%

नान-एसएनए उत्पादन गतिविधियों में सहभागिता दर

- ग्रामीण पुरूष- 37.9%
- ग्रामीण महिला- 84.2%
- नगरीय पुरूष- 33.2%
- नगरीय महिला- 81.5%

एसएनए उत्पादन गतिविधियाँ में एक दिन में प्रति प्रतिभागी खर्च औ समय:

- ग्रामीण पुरूष- 405 मिनट
- ग्रामीण महिला- 225 मिनट
- नगरीय पुरूष- 478 मिनट
- नगरीय महिला- 273 मिनट

भारत एसएनए उत्पादन गतिविधियाँ : प्रति प्रतिभागी एक दिन में खर्च औसत समय 361 मिनट

भारत नान-एसएनए उत्पादन गतिविधियाँ : प्रति प्रतिभागी एक दिन में खर्च औसत समय 264 मिनट

नान-एसएनए उत्पादन गतिविधियाँ में एक दिन में प्रति प्रतिभागी खर्च औसत समय:

- ग्रामीण पुरूष- 105 मिनट
- ग्रामीण महिला- 339 मिनट
- नगरीय पुरूष- 99 मिनट
- नगरीय महिला- 331 मिनट

N. एक दिन में 6 वर्ष एवं उससे अधिक उम्र के के व्यक्तियों का प्रति व्यक्ति एसएनए उत्पादन एवं नान-एसएनए उत्पादन की गतिविधियों में खर्च समय चाहे वे इन गतिविधियों मे सहभागी रहे हो या नहीं

एसएनए उत्पादन गतिविधियों में एक दिन में प्रति व्यक्ति खर्च औसत समय :

- ग्रामीण पुरूष- 262 मिनट
- ग्रामीण महिला- 87 मिनट
- नगरीय पुरूष- 288 मिनट
- नगरीय महिला- 63 मिनट

नान-एसएनए उत्पादन गतिविधियों में एक दिन में प्रति व्यक्ति खर्च औसत समय :

- ग्रामीण पुरूष- 40 मिनट
- ग्रामीण महिला- 286 मिनट
- नगरीय पुरूष- 33 मिनट
- नगरीय महिला- 270 मिनट

एसएनए उत्पादन एवं नान-एसएनए उत्पादन गतिविधियों में एक दिन में खर्च कुल समय में एसएनए उत्पादन की गतिविधियों में खर्च समय का प्रतिशत:

- ग्रामीण पुरूष- 86.8%
- ग्रामीण महिला- 23.3%
- नगरीय पुरूष- 89.7%
- नगरीय महिला- 18.9%

एसएनए उत्पादन एवं नान-एसएनए उत्पादन गतिविधियों में एक दिन में खर्च कुल समय में नान-एसएनए उत्पादन की गतिविधियों में खर्च समय का प्रतिशत:

- :ग्रामीण पुरूष- 13.2 %
- ग्रामीण महिला- 76.7%
- नगरीय पुरूष- 10.3%
- नगरीय महिला- 81.1%

O. 6 वर्ष एवं उससे अधिक उम्र के व्यक्तियों का प्रति व्यक्ति एक दिन में विभिन्न गतिविधियों में कुल समय का प्रतिशत शेयर

सारणी 1: 6 वर्ष एवं उससे अधिक उम्र के व्यक्तियों का प्रति व्यक्ति एक दिन में विभिन्न गतिविधियों में कुल समय का प्रतिशत शेयर

अखिल भारत

HIGHLIGHTS

Survey Period

- The "Time Use Survey" (TUS) is the first survey of its kind conducted by the National Statistical Office (NSO).
- The survey has been conducted during the period January 2019 to December 2019.

Coverage Of Survey

- This survey was spread over 9,945 First Stage Units (5,947 villages and 3,998 urban blocks)
- It covered 1,38,799 households (rural: 82,897 and urban: 55,902)
- Information on time use was collected from each member of age 6 years and above of the selected households
- 4,47,250 persons of age 6 years and above (rural: 2,73,195 and urban:1,74,055) were surveyed.
- The survey covered the whole of the Indian Union except the villages in Andaman and Nicobar Islands which are difficult to access

Data Reference

- Data on time use was collected through personal interview method
- Information on time use was collected covering a period of 24 hours starting from 4:00 A.M. on the day before the date of interview to 4:00 A.M. on the day of interview

Presentation of Results

- The results presented on time use are for persons of age 6 years and above
- Estimates of time use per day in different activities are presented considering the participants in different activities
- Some estimates of time use per day are also presented considering all persons irrespective of their participation in activities to understand the distribution of total time of 1440 minutes available for each person in a day in different activities.
- In the Highlights, the results have been presented considering all the activities in the time slots instead of the major activity only

Definition of some of the estimates

Participation rate

- Participation rate in a day in any activity is defined as the percentage of persons performing that activity during the 24 hours of the reference period.
- Participation rate in activity 'A'= $\frac{number\ \ of\ persons\ \ participating\ \ in\ activity\ \ 'A'}{total\ \ number\ \ of\ persons} * 100$

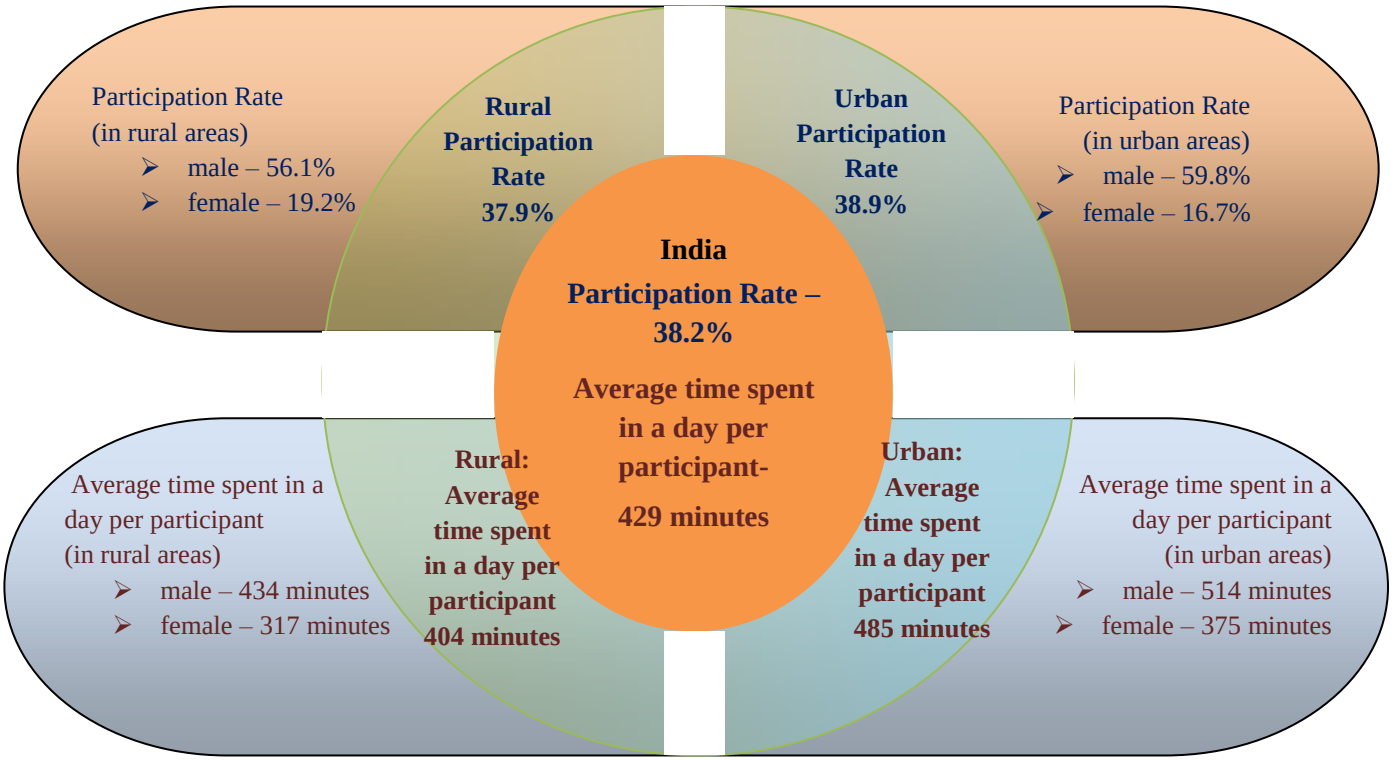
Estimates of average time spent in a day per participant

- Estimates of average time spent in a day for any activity per participant is calculated by considering those who participated in the activity
- Estimates of average time spent in a day in different activities derived by considering only the participants in the activities will not add up to 1440 minutes of the day.
- These estimates are referred to as **average time spent in a day per participant**.
- Average time spent per participant in activity 'A'= $\frac{total\ time\ spent\ by\ the\ participants\ in\ activity\ 'A'}{total\ number\ of\ persons\ participating\ in\ activity\ 'A'}$

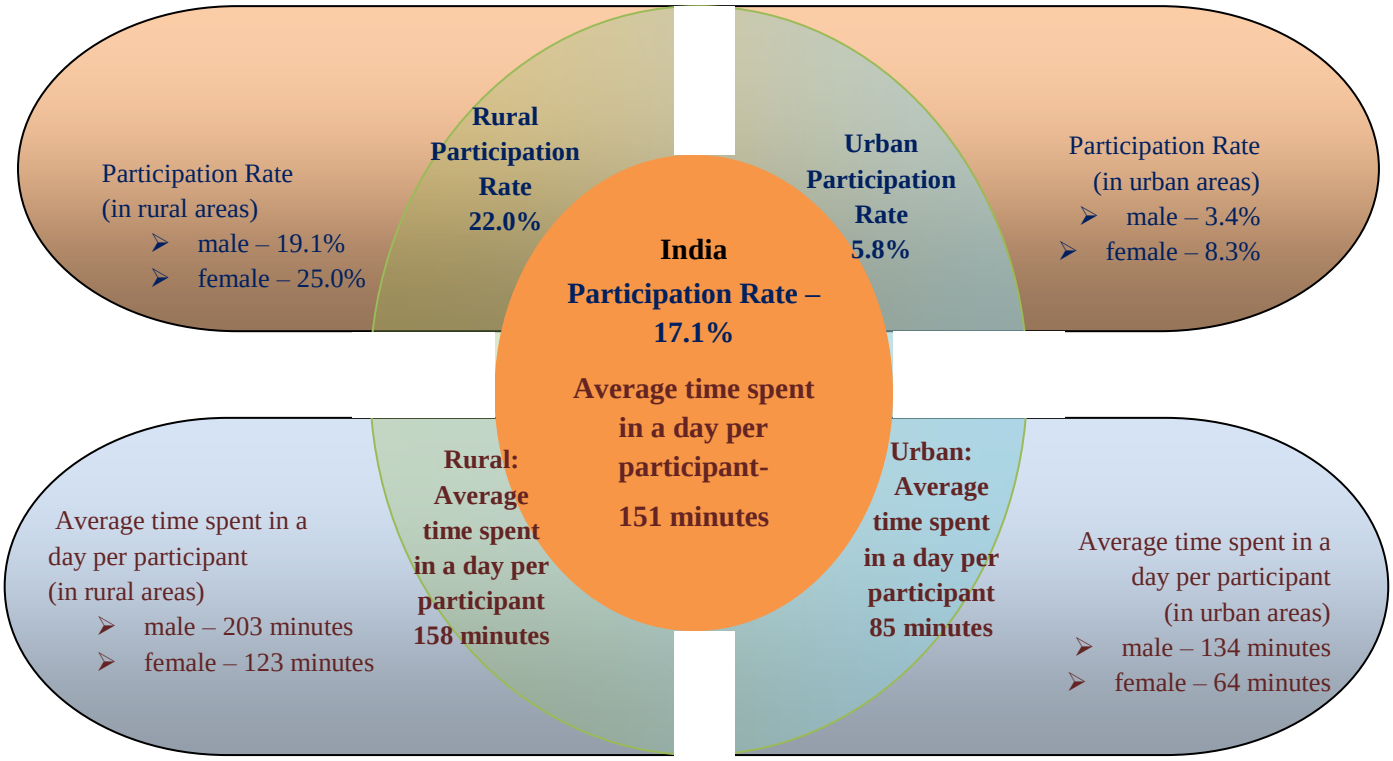
Estimates of average time spent in a day per person

- Estimates of average time spent in a day for any activity per person is calculated by considering all the persons irrespective of whether they participated in the activity or not
- By this approach, distribution of total time of 1440 minutes of a day per person in different activities can be derived and percentage share of the different activities in total time of 1440 minutes of a day can be calculated.
- These estimates are referred to as **average time spent in a day per person**.
- Average time spent per person in activity 'A'= $\frac{total\ time\ spent\ by\ the\ participants\ in\ activity\ 'A'}{total\ number\ of\ persons}$

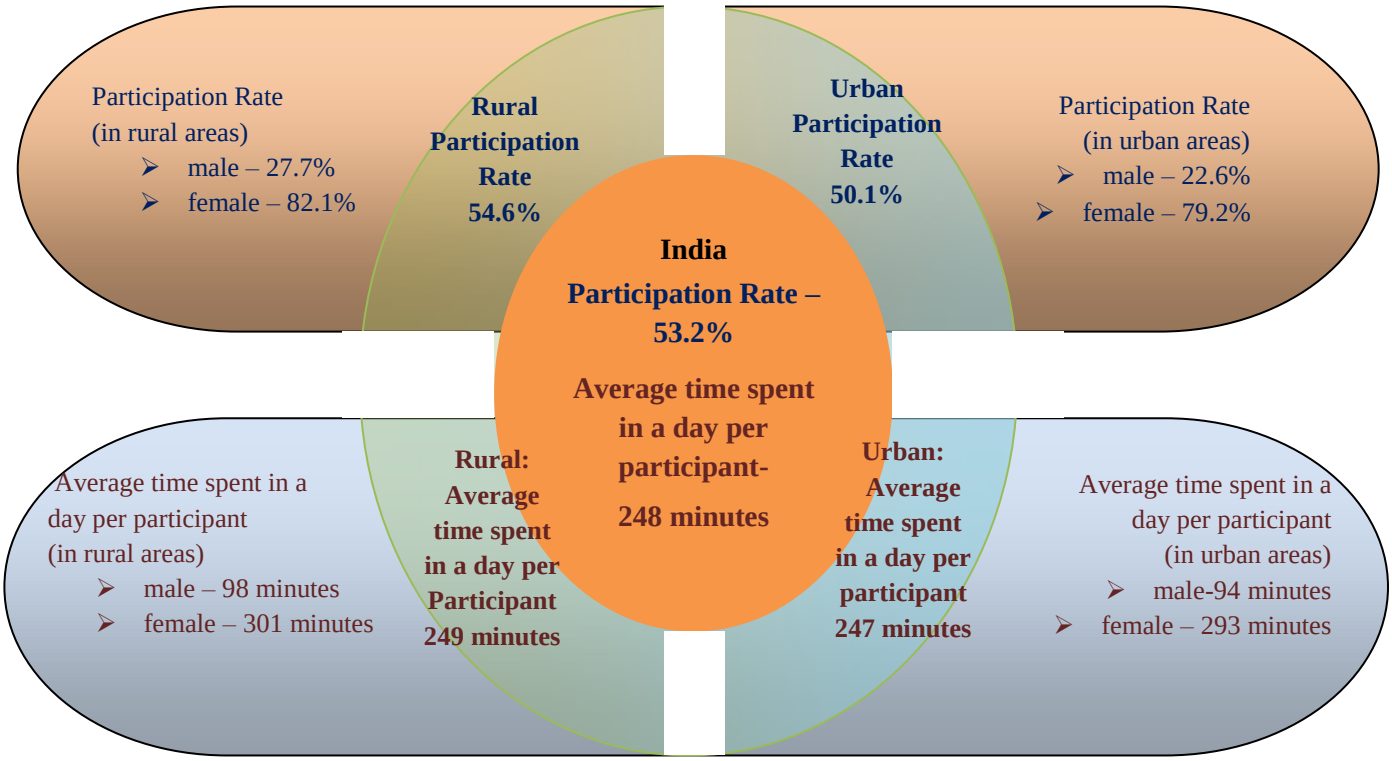
A. **Participation in employment and related activities and time spent per participant of age 6 years and above in these activities in a day**



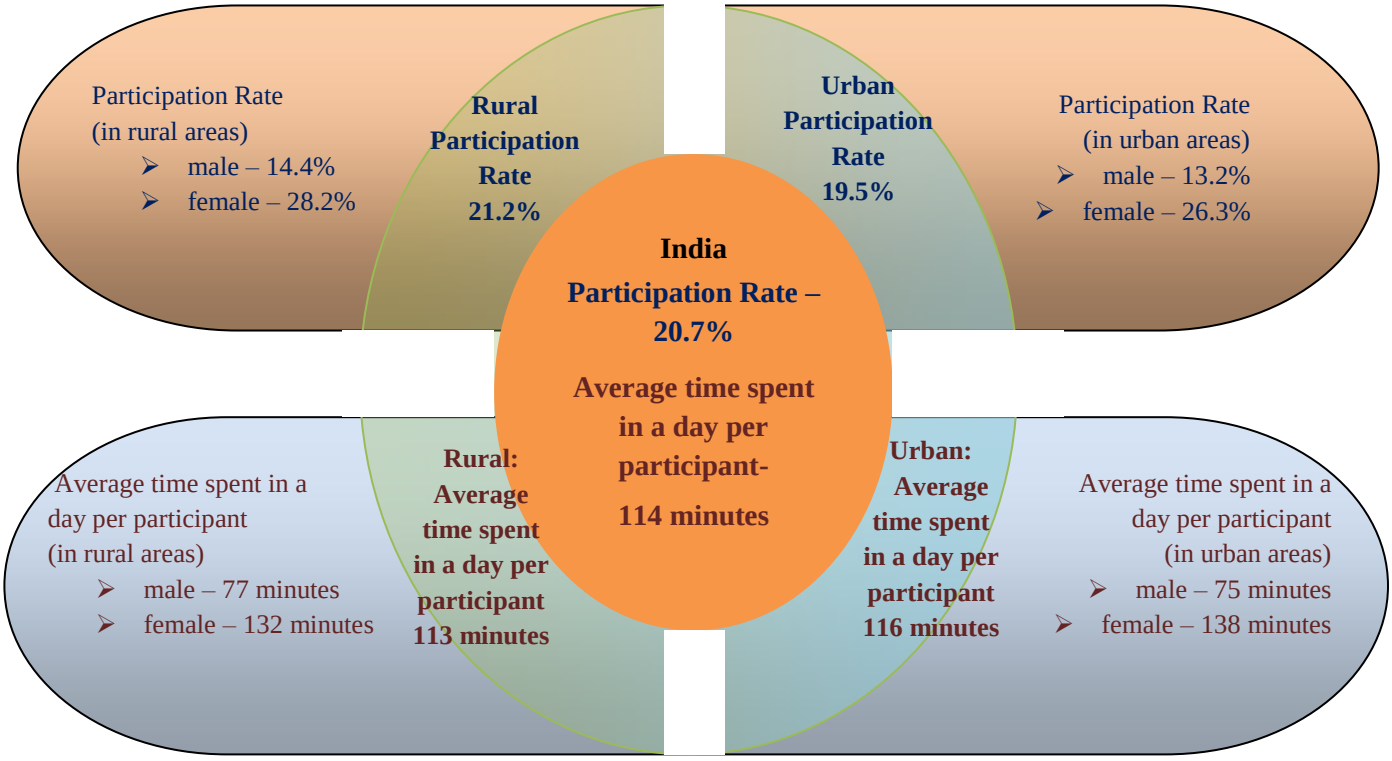
B. **Participation in production of goods for own final use and time spent per participant of age 6 years and above in these activities in a day**



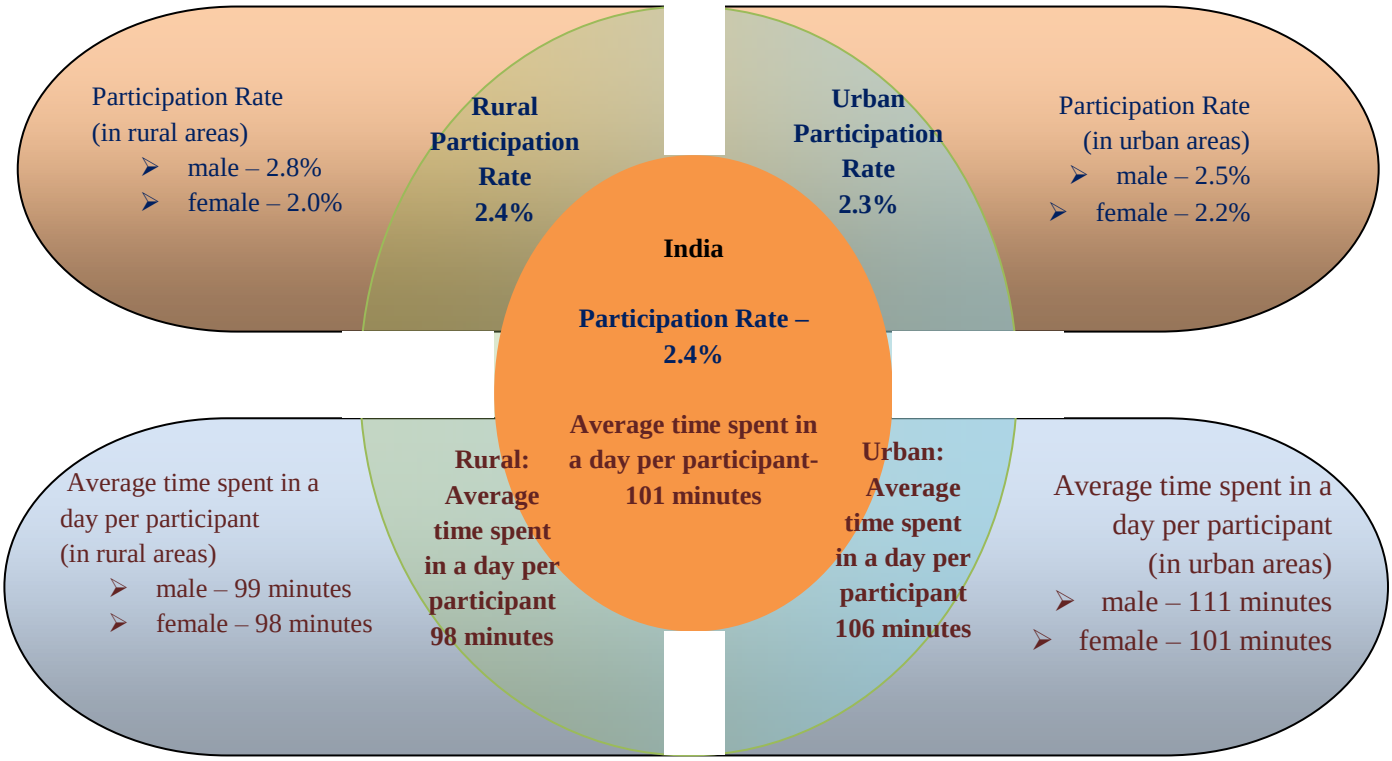
C. **Participation in unpaid domestic services for household members and time spent per participant of age 6 years and above in these activities in a day**



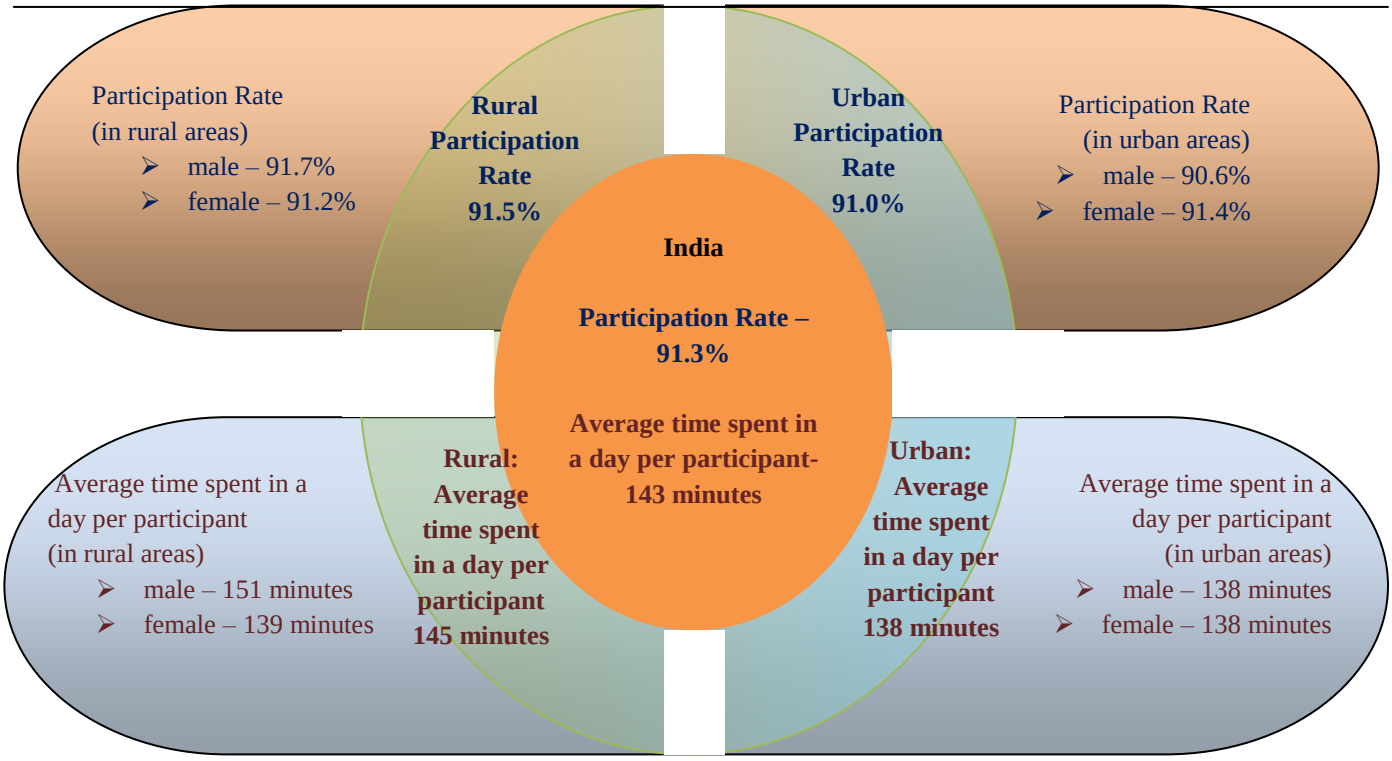
D. **Participation in unpaid caregiving services for household members and time spent per participant of age 6 years and above in these activities in a day**



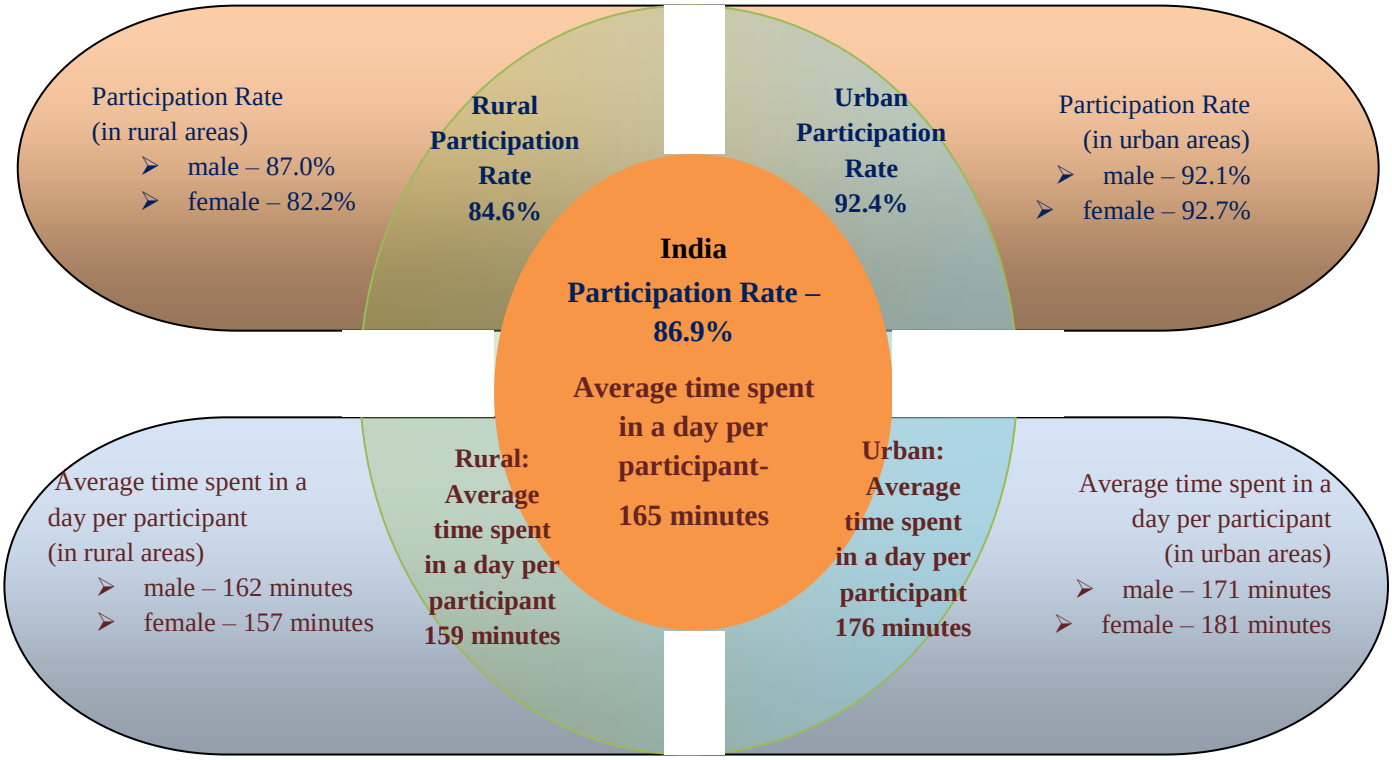
E. **Participation in unpaid volunteer, trainee and other unpaid work and time spent per participant of age 6 years and above in these activities in a day**



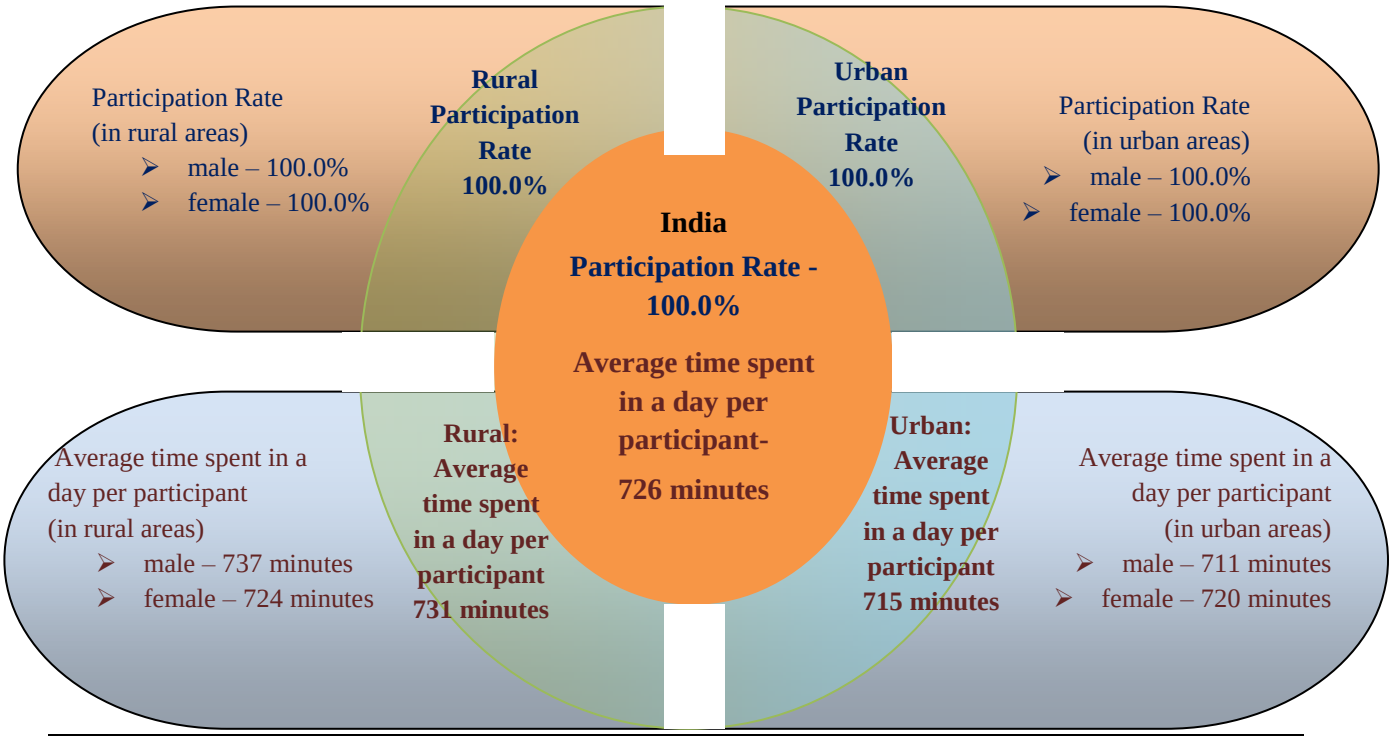
F. **Participation in socializing and communication, community participation and religious practice and time spent per participant of age 6 years and above in these activities in a day**



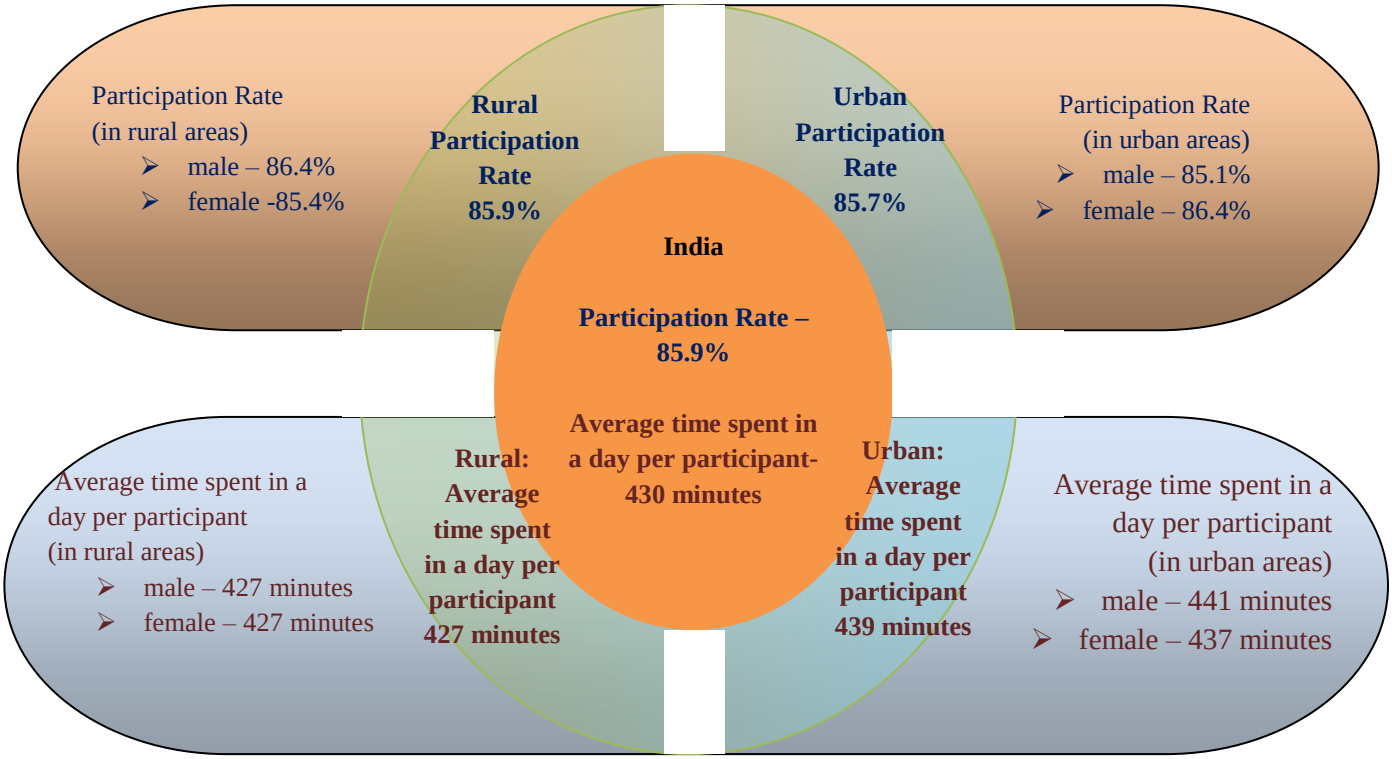
G. **Participation in culture, leisure, mass-media and sports practices and time spent per participant of age 6 years and above in these activities in a day**



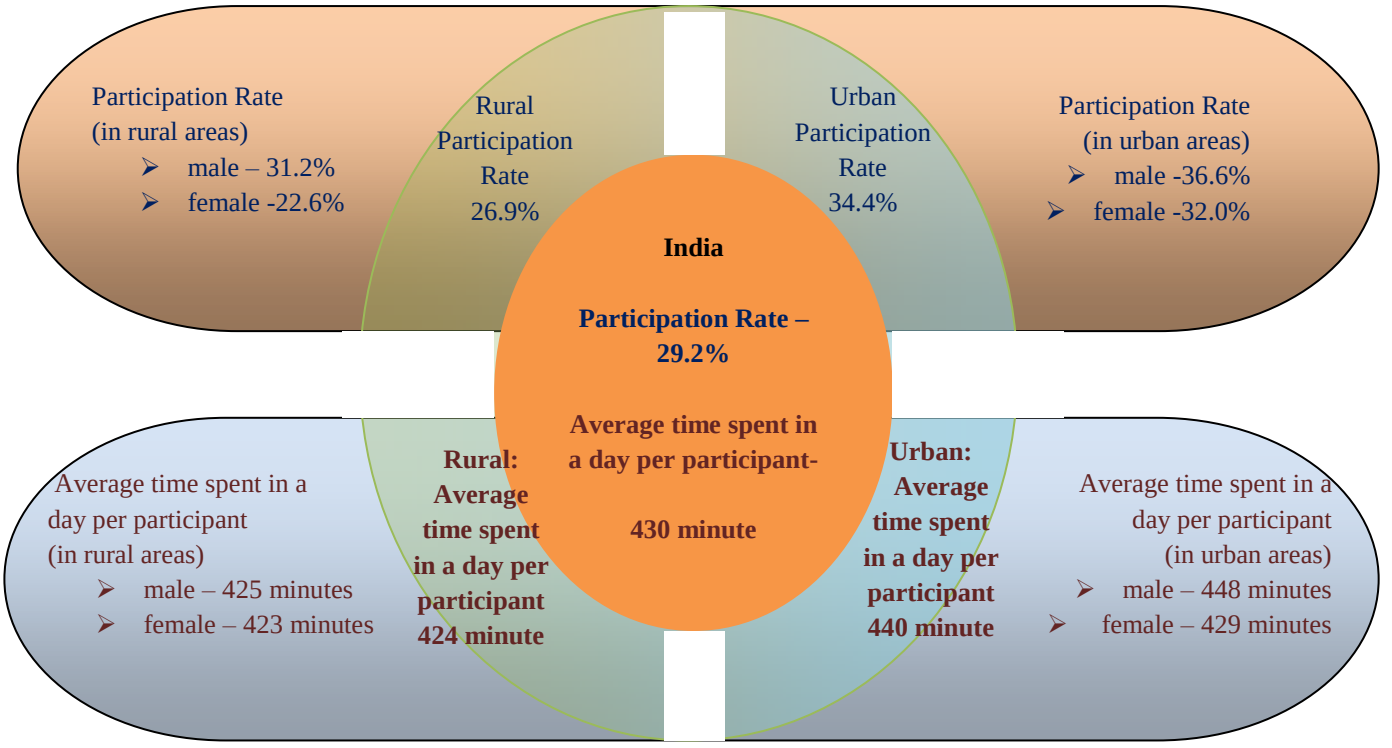
H. **Participation in self-care and maintenance and time spent per participant of age 6 years and above in these activities in a day**



I. Participation in learning and time spent per participant of age 6-14 years in learning activities in a day



J. Participation in learning and time spent per participant of age 15-29 years in learning activities in a day



K. Participation in unpaid and paid activities and time spent per participant of age 6 years and above in these activities in a day

Participation Rate in Unpaid activities:

- rural male -47.8%
- rural female – 85.0%
- urban male-35.1%
- urban female-81.7%

India Unpaid activities: Participation Rate 63.6%

India Paid activities: Participation Rate 36.2%

Participation Rate in Paid activities:

- rural male – 53.4%
- rural female – 17.7%
- urban male-58.1%
- urban female-15.5%

Average time spent in a day per participant Unpaid activities:

- rural male – 167 minutes
- rural female – 373 minutes
- urban male-110 minutes
- urban female-337 minutes

India Unpaid activities: Average time spent in a day per participant 289 minutes

India Paid activities: Average time spent in a day per participant 413 minutes

Average time spent in a day per participant Paid activities:

- rural male – 415 minutes
- rural female – 313 minutes
- urban male-486 minutes
- urban female-367 minutes

L. Time spent in unpaid and paid activities per person age 6 years and above in a day irrespective of whether they participated in these activities or not

Average Time spent per person in a day in Unpaid Activities in India:

- rural male – 80 minutes
- rural female – 317 minutes
- urban male-39 minutes
- urban female-276 minutes

Average Time spent per person in a day in Paid Activities in India:

- rural male – 222 minutes
- rural female – 55 minutes
- urban male-282 minutes
- urban female-57 minutes

Percentage share of unpaid activities in the total time spent in paid and unpaid activities in a day in India:

- rural male – 26.5%
- rural female – 85.2%
- urban male-12.1%
- urban female-82.9%

Percentage share of paid activities in the total time spent in paid and unpaid activities in a day in India:

- rural male – 73.5%
- rural female –14.8%
- urban male-87.9%
- urban female-17.1%

M. Participation in SNA production and non-SNA production activities and time spent per participant of age 6 years and above in these activities in a day

Participation Rate in SNA Production Activities:

- rural male – 64.5%
- rural female – 38.7%
- urban male-60.2%
- urban female-23.1%

India SNA Production Activities: Participation Rate 48.8%

India Non-SNA Production Activities: Participation Rate 59.5%

Participation Rate in Non-SNA Production Activities:

- rural male – 37.9%
- rural female – 84.2%
- urban male-33.2%
- urban female-81.5%

Average time spent in a day per participant in SNA Production Activities:

- rural male – 405 minutes
- rural female – 225 minutes
- urban male-478 minutes
- urban female-273 minutes

India SNA Production Activities: Average time spent in a day per participant 361 minutes

India Non-SNA Production Activities: Average time spent in a day per participant 264 minutes

Average time spent in a day per participant in Non-SNA Production Activities:

- rural male – 105 minutes
- rural female – 339 minutes
- urban male-99 minutes
- urban female-331 minutes

N. Time spent in SNA production and non-SNA production activities per person age 6 years and above in a day irrespective of whether they participated in these activities or not

Average Time spent per person in a day in SNA Production Activities:

- rural male – 262 minutes
- rural female – 87 minutes
- urban male-288 minutes
- urban female-63 minutes

Average Time spent per person in a day in Non-SNA Production Activities:

- rural male – 40 minutes
- rural female – 286 minutes
- urban male-33 minutes
- urban female-270 minutes

Percentage share of SNA production activities in the total time spent in a day in SNA and non-SNA production Activities:

- rural male –86.8%
- rural female –23.3%
- urban male-89.7%
- urban female-18.9%

- Percentage share of non-SNA production activities in the total time spent in a day in SNA and non-SNA production Activities:
  - rural male –13.2 %
  - rural female – 76.7%
  - urban male-10.3%
  - urban female-81.1%

O. Percentage share of total time in different activities in a day per person

Table 1: Percentage share of total time in different activities in a day per person of age 6 years and above

all-India

Description of the activity	**rural**			**urban**			**rural+urban**

Introduction

Chapter One

Introduction

1.0 Introduction

1.0.1 Time Use Survey (TUS) provides a framework for measuring time dispositions by the population on different activities. It is an important source of information about the activities that are performed by the population and the time duration for which such activities are performed. One distinguishing feature of Time Use Survey from other household surveys is that it can capture time disposition on different aspects of human activities, be it paid, unpaid or other activities with such details which is otherwise not possible in other surveys. In recent years, time use surveys have gained much impetus among policy makers and other data users for their usefulness in measuring various aspects of gender statistics.

National Statistical Office (NSO) in India conducted the first Time Use Survey during January – December 2019. The survey measures the participation rate and time spent on paid activities, care activities, unpaid activities, etc.

1.1 Objective of the Time Use Survey, 2019

1.1.1 The primary objective of Time Use Survey (TUS) is to measure participation of men and women in paid and unpaid activities. TUS is an important source of information on the time spent in unpaid caregiving activities, volunteer work, unpaid domestic service producing activities of the household members. It also provides information on time spent on learning, socializing, leisure activities, self-care activities, etc., by the household members.

1.2 Features of the Time Use Survey, 2019

1.2.1 The Time Use Survey, 2019 has the following features:

(i) In this survey, information on activity particulars was collected for each household member of age 6 years and above, with a reference period of 24 hours starting from 4:00 AM on the day before the date of interview to 4:00 AM on the day of the interview. The reference period of 24 hours was split into 48 time slots, each of duration of 30 minutes.

(ii) The Information on time use for the reference period was collected through personal interview from the persons of age 6 years and above of the selected households.

(iii) Respondents were asked about their activities performed in the designated time slots and the same was recorded against the corresponding slot. In case of multiple activities in a time slot the activities which were performed for 10 minutes or more were recorded.

(iv) The activities reported by the respondents, were codified (3-digit code) following the International Classification of Activities for Time Use Statistics 2016 (ICATUS 2016). The classification is referred to as *TUS activity classification* in this Report. The code structure and description of the 3-digit code of the TUS activity classification are given in Annexure in Chapter Two.

(v) Determination of activity performed in a day and time spent in a day in that activity have been done in the following ways:

a. *Considering **only the major activity** in a time slot:* While considering only the major activity in a time slot, the entire duration of the time in that time slot has been allotted to the major activity and the major activity was considered as the activity performed in that time slot.

b. *Considering **all the activities** in a time slot:* While considering all the activities performed in a time slot, the entire duration of time in a time slot has been assigned among the activities in a time slot in the following ways:

- If in a time slot only one activity was performed, the entire duration of that time slot was allotted against that activity.
- If in a time slot more than one activity was performed, the entire duration of that time slot was allotted equally among the activities performed in that time slot.

In the Highlights of this Report, estimates have been presented considering all the activities in a time slot. All-India level estimates in Chapter three have also been presented considering all the activities in the time slot.

In the title of the Tables given in Appendix A of this Report as well as in the title of the Statements presented for the State/UT in Chapter Three of this Report, it has been mentioned specifically whether the estimates are presented considering only the major activity or considering all the activities.

1.3 Geographical coverage

1.3.1 *Geographical coverage*: The survey covered the whole of the Indian Union except the villages in Andaman and Nicobar Islands which are difficult to access.

1.4 Sample Design

1.4.1 In Time Use Survey (TUS), a rural village was notionally divided into a number of sub-units (SU) of more or less equal population during the preparation of frame. Census 2011 population of villages was projected by applying suitable growth rates and the number of SUs formed in a village was determined apriori. The above procedure of SU formation was implemented in the villages with population more than or equal to 1000 as per Census 2011. In the remaining villages, no SU was formed. SUs were formed in urban sector also. The procedure was similar to that adopted in rural areas except that SUs were formed on the basis of households in the Urban Frame Survey (UFS) frame instead of population, since UFS frame does not have population. Each UFS block with number of households more than or equal to 250 was divided into a number of SUs. In the remaining UFS blocks, no SU was formed.

1.4.2 A stratified two stage design was adopted for the TUS. *The first stage units (FSU) were villages/UFS blocks/sub-units (SUs) as per the situation.* The ultimate stage units (USU) were households in both the sectors.

1.4.3 In the rural areas, stratification was made as follows: (a) all inhabited villages within each NSS State region constituted a rural stratum and (b) a special stratum, in the *rural areas* only, was formed at all-India level before the strata are formed in each State/UT. This stratum comprised all the uninhabited villages as per Census 2011 belonging to all States/UTs. In urban areas strata were formed within each NSS State region on the basis of size class of towns as per Census 2011.

1.4.4 *Sub-Stratification in rural areas:* In rural areas, three groups of villages were formed within each stratum (except special rural stratum) as follows:

Group 1: all villages (Panchayat wards for Kerala) with Census 2011 population less than 250

Group 2: all villages (Panchayat wards for Kerala) with Census 2011 population more than or equal to 250 but less than 500

Group 3: remaining villages

The sample size for a rural stratum was allocated among 3 groups in proportion to Census population. Sub-strata was demarcated in Group 1, Group 2 and Group 3 respectively in such a way that each sub-stratum comprises a group of villages (all SUs of a village considered together) of the arranged frame and have more or less equal Census population within the respective group.

1.4.5 *Sub-Stratification in urban areas***:** Sub-strata were demarcated in such a way that each sub-stratum comprised a group of UFS blocks (all SUs within the block taken together) having more or less equal number of households.

1.4.6 A total of 10004 FSUs were allocated for TUS, 2019 at all-India level. The total number of sample FSUs were allocated to the States and UTs in proportion to their population as per Census 2011 subject to a minimum sample allocation of 16 FSUs for each State/UT. State/UT level sample was allocated to rural and urban sectors in proportion to population as per Census 2011 with 1.5 weightage to urban sector. A minimum of 4 FSUs, each for rural and urban sector separately, were allocated to each State/UT. For more urbanised big States like Maharashtra, Tamil Nadu etc., the urban allocation was limited to rural sample size to avoid undue weightage to urban sector. Within each sector of a State/ UT, the respective sample size was allocated to the different strata in proportion to the population as per Census 2011 population. Stratum level allocation was adjusted to multiples of 4 with a minimum sample size of 4. For special stratum formed at state level, 4 FSUs were allocated. For each sub-stratum in the rural sector and urban sector, a total of 4 FSUs were allocated. For TUS, it was planned that for each FSU, a total number of 14 households would

be surveyed during a period of 7 days, with 2 households on each of the 7 days of the survey period in that FSU. The sample households from each FSU were selected by SRSWOR. It may be noted that in TUS, no second stage stratification of households was made. Sample size for TUS is given below:

Table : Sample size		
FSU/Households/persons	rural	urban
FSU allotted	5,992	4,012
FSU surveyed	5,947	3,998
households surveyed	82,897	55,902
total persons of age 6 years and above surveyed	2,73,195	1,74,055
total persons of age 6 years and above excluding the non-reporting cases *	2,72,117	1,73,182
** The difference is due to the number (1,951) of persons in respect of whom information on time use could not be collected*		

1.5 Contents of the report

1.5.1 This report is organized in three chapters, including the present introductory chapter (Chapter One), and Four appendices. Chapter Two describes the concepts and definitions of those terms used in the survey in connection with the various items covered in this report. The Summary of Findings is presented in Chapter Three. In Chapter Three, the estimates for each State/UT are also provided in Statement 1.1 to Statement 17.1. The detailed tables forming the basis of this report are presented in Appendix A. The RSEs of some of the key indicators have been presented in Appendix B. If RSE of an estimate for any category appear as zero, it indicates that the RSE is zero when rounded off or in case of participation rate, the estimate of participation rate is 100% and hence the corresponding RSE is zero (0). RSE is blank in case there is no sample observation or a single sample observation. Appendix C gives a detailed description of the sample design and estimation procedure used for the survey. Appendix D gives a facsimile of the schedule (Schedule 10.6) canvassed.

1.5.2 While using the State/UT level estimates, it may be noted that the sample sizes for the smaller State or UTs may not be adequate for getting sufficiently reliable estimates for some of the indicators. If there is no sample observation for any particular category, the estimate corresponding to that category is marked as a dash (-). If the estimate for any category appear as zero, it indicates that sample observation corresponding to that category is greater than zero but the estimates are zero when rounded off. In this report, no separate estimate for transgender has been provided considering the constraints of sample size and transgender has been included in persons.

Chapter Two

Concepts and Definitions

Chapter Two

Concepts and Definitions

2.0 The concepts and definitions of some important terms used in the survey and relevant to this report are explained in the following paragraphs. It may be noted that information in this survey was collected from the respondents by personal interview method.

2.1 Household and household size: A group of persons who normally lived together and took food from a common kitchen constituted a household. The adverb "normally" means that temporary visitors and guests (whose total period of stay in the household was expected to be less than 6 months) were excluded but temporary stay-aways (whose total period of absence from the household was expected to be less than 6 months) were included. Thus a child residing in a hostel for studies was excluded from the household of his/her parents, but a resident domestic servant or paying guest (but not just a tenant in the house) was included in the employer's/host's household. "Living together" was given more importance than "sharing food from a common kitchen" in drawing the boundaries of a household in case the two criteria were in conflict. However, in the special case of a person taking food with his family but sleeping elsewhere (say, in a shop or a different house) due to shortage of space, the household formed by such a person's family members was taken to include the person also. Each inmate of a hotel, mess, boarding-lodging house, hostel, etc., was considered to be a single-member household. The same principle was applicable for the residential staff of such establishments. However, if a group of persons among them pooled their income for spending, they were treated as forming a single household. A family living in a hotel was treated as a single household. The size of a household is the total number of persons in the household.

2.2 Age (years): The age in completed years, as on the date of survey, of the household members were recorded.

2.3. Age of the person considered for collection of information on time use: Particulars relating to time use was collected for each member of age 6 years and above of the selected households.

2.4 Highest level of education: It is the highest level of education considering all general/ technical/vocational educational level successfully completed by the members of the household. A person who can both read and write a simple message with understanding in at least one language was considered literate. Those who were not able to do so, were considered not literate. For the purpose of this survey**,** the primary level was defined as Class I-V for all the States/UTs uniformly. In this survey, information on highest level of educational successfully completed was collected on the following categories:

not literate
literate:
below primary
primary
upper primary/middle
secondary
higher secondary
diploma /certificate course (upto secondary)
diploma /certificate course (higher secondary)
diploma /certificate course (graduation and above)
graduate
post graduate and above

2.5 Household's usual consumer expenditure (Rs.) in a month: Household's usual monthly consumer expenditure is the sum total of monetary values of all goods and services consumed by the household on domestic account with a monthly regularity. Unusual expenditures, such as, expenditure on social ceremonies, capitation fee, hospitalization etc. were excluded for deriving usual monthly consumer expenditure of the household. However, expenditure on household durable goods was included and monthly expenditure on durable goods was derived by apportioning the total expenditure made by the household on durable goods during last 365 days. For deriving household's usual monthly consumer expenditure, information on regular monthly expenditure of the household for household purposes out of purchase, home grown and wages in kind, free collection gift etc. is collected along with the information on expenditure of the household for purchase of durable goods during last 365 days. In Time Use Survey, the usual monthly consumer expenditure of the household was collected through these five items:

A: usual consumer expenditure in a month for household purposes out of purchase

B: imputed value of usual consumption in a month from home grown stock

C: imputed value of usual consumption in a month from wages in kind, free collection, gifts etc.

D: expenditure on purchase of household durables during last 365 days

From the information collected in these five items, usual monthly consumer expenditure of the household was derived as [A+B+C+(D/12).

Since this information on Household Usual Monthly Consumer Expenditure was collected through a five question, it cannot be used to estimate the household consumer expenditure which is generally estimated based on detailed household consumer expenditure survey (Schedule 1.0). Based on the information collected on Household Usual Monthly Consumer Expenditure, quintile classes of Usual Monthly Per Capita Consumer Expenditure (UMPCE) were formed

(with each quintile class containing 20 per cent of the population) separately for each sector (rural/urban).

2.6 Day of week: Day of the week was the day before the date of the interview for which the information on time use was recorded

2.7 Type of the day: The day for which information on time use was collected was either a normal day or a day other than a normal day (termed as *other day*).

2.8 Normal day and other day: The normal days were the days on which a household member pursued mostly his/her routine activities whereas the day on which the routine activities of a household member were altered due to any reason, was treated as 'other day'. For a household member, a day other than a normal day might arise due to social obligations or some unforeseen reasons like, illness, ceremonies, hospitalization of a household member or duties thrust upon due to an accident, etc. besides, weekly off-days, holidays or days of leave. The decision on whether a day is a normal day or other day for a household member was taken in consultation with the informant and considering the routine activities of the household members.

2.9 Paid and unpaid activities: In this report the activities of the members of the households were classified as paid activities and unpaid as follows:

Unpaid activities
care for children, sick, elderly, differently-abled persons in own households
production of other services for own consumption
production of goods for own consumption
voluntary work for production of goods in households
voluntary work for production of services in households
voluntary work for production of goods in market/non-market units
voluntary work for production of services in market/non-market units
unpaid trainee work for production of goods
unpaid trainee work for production of services
other unpaid work for production of goods
other unpaid work for production of services

Paid activities
self-employment for production of goods
self-employment for production of services
regular wage/ salary for production of goods
regular wage/ salary for production of services
casual labour for production of goods
casual labour: for production of services

2.10 Classification of activities in System of National Accounts (SNA) Production, non-SNA and other remaining activities

SNA production:
Employment in corporations, government and non-profit institutions
Production of goods for own final use
Employment in household enterprises to produce goods
Employment in household enterprises to provide services
Ancillary activities and breaks related to employment
Training and studies in relation to employment
Employment-related travel
Unpaid trainee work and related activities
Unpaid direct volunteering for other households for production of goods or for production of goods/services for market/non-market units
Unpaid community- and organization-based volunteering for production of goods or for production of goods/services for market/non-market units
Other unpaid work activities (other than those which are already covered in SNA or covered in non-SNA production)
Non-SNA production:
Unpaid domestic services for household members
Unpaid caregiving services for household members
Unpaid direct volunteering for other households for production of services for the households
Unpaid community- and organization-based volunteering for production of services for the households
Other activities
Seeking employment
Setting up a business
Commuting
Learning
Socializing and communication, community participation and religious practice
Culture, leisure, mass-media and sports practices
Self-care and maintenance

2.11 Time Use Classification to be used in the TUS: The International Classification of Activities for Time Use Statistics 2016 (3-digit code) (ICATUS 2016) was used in TUS to record 3-digit codes of the activities of the household members. The code structure and description of the 3-digit code of the TUS activity classification are given in Annexure of this Chapter.

2.12 Reference period for recording activities: For each household member of age 6 years and above, information on activity particulars was collected with a reference period of 24 hours starting from 4:00 AM on the day before the date of interview to 4:00 AM on the day of the interview.

2.13 Time slot: The reference period of 24 hours was split into 48 time slots, each of duration of 30 minutes. The time slots used was in 24-hour format, like 12:00 to 12:30, 12:30 to 13:00, etc.

2.14 Number of activities to be recorded in each time slot: To record activities, the reference period of 24 hours was split into 30 minutes time slots and in each of these time slots, at most three activities were recorded. Each of the activities in a time slot which were performed for 10 minutes or more were only considered for recording and at most three of such activities were recorded chronologically following major time criteria.

2.15 Whether performed multiple activity in the time slot*:* If in a time slot more than one activities were performed each of which was for a duration of 10 minutes or more, the time slot was identified as a time slot in which multiple activities were performed

2.16 Whether performed simultaneous activity in a time slot: If in a time slot multiple activities were recorded, it was enquired whether some of these activities were performed simultaneously or not. Simultaneous activities are those that have an overlap of some duration of time in the same time slot of 30-minute duration, irrespective of their starting or ending time. If in a time slot where multiple activities were performed, some of the activities were simultaneous activities, the time slot was identified as a time slot in which simultaneous activities were performed.

2.17 Whether a major activity or a minor activity*:* Among the activities recorded in a time slot, the major activity was the one which was considered most important activity by the informant performed during a time slot. If in a time slot only one activity was performed, that activity was always considered as a major activity. However, if more than one activity was performed in a time slot, one of the activities was treated as a major activity and all other activities in that time slot was considered as minor activity.

2.18 Where the activity was performed: Information on the location where the activity was performed was recorded for each of the activities in a time slot as follows:

within premises of the dwelling unit of the selected household

outside premises of the dwelling unit of the selected household:

in fixed location
in non-fixed location

2.19 Social group: For each household surveyed, the social group to which the head of the household belonged to was recorded. The social group of the head of the household was considered as the social group of all the members of the household irrespective of the actual social group to which the individual members belonged. In the survey, information was collected in respect of four social groups viz. *scheduled tribe* (ST), *scheduled caste* (SC), *other backward class* (OBC) and the rest referred to as *others*. The information recorded in this regard was based

entirely on the response of the informant and not based on any state or central level list of the social group.

2.20 Usual principal activity status of the persons of age 6 years and above: For the household members of age 6 years and above, information on their usual principal activity statuses was collected in TUS to study the time use by persons in different usual principal activity statuses. The relevant concepts and approach followed to determine the usual principal activity statuses is given below:

2.20.1 Economic activity: The term 'economic activity' included:

(i) all the market activities, i.e., the activities performed for pay or profit which result in production of goods and services for exchange,

(ii) of the non-market activities,

(a) all the activities relating to the primary sector (i.e., **industry Divisions 01 to 09 of NIC-2008**) which result in production (including free collection of uncultivated crops, forestry, firewood, hunting, fishing, mining, quarrying, etc.) of primary goods, including threshing and storing of grains for own consumption.

and

(b) the activities relating to the own-account production of fixed assets. Own account production of fixed assets includes construction of own houses, roads, wells, etc., and of machinery, tools, etc., for household enterprise and also construction of any private or community facilities free of charge. A person may be engaged in own account construction in the capacity of either a labourer or a supervisor.

The activities like prostitution, begging, etc., which may result in earning, were not considered as economic activities for the survey.

2.20.2 Activity status: It is the activity situation relating to participation in economic and / or non-economic activities in which a person is found engaged during a reference period. According to this, a person is in one or a combination of the following three broad activity statuses during a reference period:

(i) Working or being engaged in economic activity (work),

(ii) Being not engaged in economic activity (work) and either making tangible efforts to seek 'work' or being available for 'work' if the 'work' is available and

(iii) Being not engaged in any economic activity (work) and also not available for 'work'.

Activity statuses, as mentioned in (i) & (ii) above, are associated with 'being in labour force' and the last with 'not being in the labour force'. Within the labour force, activity status (i) above is associated with 'employment' and activity status (ii) with 'unemployment'. During a specified

reference period by adopting the procedure to determine the broad activity statuses, each person is classified in one of the three broad activity statuses. Persons found with the broad activity statuses (i), (ii) and (iii), during the reference period, are employed (worker), unemployed and 'not in labour force', respectively.

The detailed activity statuses under each of the three broad activity statuses (viz. 'employed', 'unemployed' and 'not in labour force') and the corresponding codes used in the survey are given below:

code	description
working (or employed)	
self-employed	
11	worked in household enterprises (self-employed) as own-account worker
12	worked in household enterprises (self-employed) as an employer
21	worked in household enterprises (self-employed) as helper
regular wage/ salaried employee	
31	worked as regular wage/salaried employee
casual labour	
41	worked as casual labour in public works
51	worked as casual labour in other types of works
not working but seeking/available for work (or unemployed)	
81	sought work or did not seek but was available for work
neither working nor available for work (or not in labour force)	
91	attended educational institutions
92	attended to domestic duties only
93	attended to domestic duties and was also engaged in free collection of goods (vegetables, roots, firewood, cattle feed, etc.), sewing, tailoring, weaving, etc. for household use
94	rentiers, pensioners, remittance recipients, etc.
95	not able to work owing to disability
97	others (including beggars, prostitutes, etc.)
99	children of age 0-4 years

2.20.3 Constituents of 'employed, 'unemployed', 'labour force', 'out of labour force'

The various constituents of 'employed, 'unemployed', 'labour force', 'out of labour force' are as explained below:

(i) Workers (or employed): Persons who were engaged in any economic activity or who, despite their attachment to economic activity, abstained themselves from work for reason of illness,

injury or other physical disability, bad weather, festivals, social or religious functions or other contingencies necessitating temporary absence from work, constituted workers. Unpaid household members who assisted in the operation of an economic activity in the household farm or non-farm activities were also considered as workers..

(ii) Seeking or available for work (or unemployed): Persons who, owing to lack of work, had not worked but either sought work through employment exchanges, intermediaries, friends or relatives or by making applications to prospective employers or expressed their willingness or availability for work under the prevailing conditions of work and remuneration, were considered as those 'seeking or available for work' (or unemployed).

(iii) Labour force: Persons who were either 'working' (or employed) or 'seeking or available for work' (or unemployed) constituted the labour force.

(iv) Not in labour force: Persons who were neither 'working' nor 'seeking or available for work' for various reasons during the reference period were considered as 'not in labour force'. Persons under this category are students, those engaged in domestic duties, rentiers, pensioners, recipients of remittances, those living on alms, infirm or disabled persons, too young persons, prostitutes, etc. and casual labours not working due to sickness.

(v) Self-employed: Persons who operated their own farm or non-farm enterprises or were engaged independently in a profession or trade on own-account or with one or a few partners were deemed to be self-employed in household enterprises. The essential feature of the self-employed is that they have *autonomy* (decide how, where and when to produce) and *economic independence* (in respect of choice of market, scale of operation and finance) for carrying out their operation. The remuneration of the self-employed consists of a non-separable combination of two parts: a reward for their labour and profit of their enterprise.

Self-employed persons were categorised as follows:

(a) own-account workers: Self-employed persons who operated their enterprises on their own account or with one or a few partners and who, during the reference period, by and large, ran their enterprise without hiring any labour were considered as own-account workers. They could, however, have had unpaid helpers to assist them in the activity of the enterprise.

(b) employers: Self-employed persons who worked on their own account or with one or a few partners and, who, by and large, ran their enterprise by hiring labour were considered as employers.

(c) helpers in household enterprise: Self-employed persons who were engaged in their household enterprises, working full or part time and did not receive any regular salary or wages in return for the work performed were considered as helpers in household enterprise. They did not run the household enterprise on their own but assisted the concerned person living in the same household in running the household enterprise.

2.20.4 *Regular wage/salaried employee:* These were persons who worked in others' farm or non-farm enterprises (both household and non-household) and, in return, received salary or wages on a regular basis (i.e. not on the basis of daily or periodic renewal of work contract). This category included not only persons getting time wage but also persons receiving piece wage or salary and paid apprentices, both full time and part-time.

2.20.5 *Casual labour:* A person who was casually engaged in others' farm or non-farm enterprises (both household and non-household) and, in return, received wages according to the terms of the daily or periodic work contract, was considered as a casual labour.

2.20.6 Approach followed to determine activity status: The persons were classified into various activity categories on the basis of activities (economic/non-economic) pursued by them in the usual principal status approach on the basis of the reference period of one year.

Usual activity status: The usual activity status relates to the activity status of a person during the reference period of 365 days preceding the date of survey. The activity status on which a person spent relatively long time (major time criterion) during the 365 days preceding the date of survey is considered the *usual principal activity status* of the person. To decide the usual principal activity of a person, he/ she is first categorised as belonging to the labour force or not, during the reference period **on the basis of major time criterion**. Persons, thus adjudged as not belonging to the labour force are assigned the broad activity status 'neither working nor available for work'. For the persons belonging to the labour force, the broad activity status of either 'working' or 'not working but seeking and/ or available for work' is then ascertained again on the basis of the relatively long time spent in the labour force during the 365 days preceding the date of survey. Within the broad activity status so determined, the detailed activity status category of a person pursuing more than one such activity was determined again on the basis of the 'relatively long time spent' criterion.

2.21 Determination of activity performed in a day and time spent in a day in that activity

2.21.1 *Considering only the major activity in a time slot:* While considering only the major activity in a time slot, the entire duration of the time in that time slot has been allotted to the major activity and the major activity was considered as the activity performed in that time slot.

2.21.2 *Considering all the activities in a time slot:* While considering all the activities performed in a time slot, the entire duration of time in a time slot has been assigned among the activities in a time slot in the following ways:

- If in a time slot only one activity was performed, the entire duration of that time slot was allotted against that activity.
- If in a time slot more than one activity was performed, the entire duration of that time slot was allotted equally among the activities performed in that time slot.

Annexure

TUS activity classification as per International Classification of Activities for Time Use Statistics 2016 (ICATUS 2016)

Major division	Division	Group	Activity title
1	**Employment and related activities**		
	11	*Employment in corporations, government and non-profit institutions*	
		110	Employment in corporations, government and non-profit institutions
	12	*Employment in household enterprises to produce goods*	
		121	Growing of crops for the market in household enterprises
		122	Raising animals for the market in household enterprises
		123	Forestry and logging for the market in household enterprises
		124	Fishing for the market in household enterprises
		125	Aquaculture for the market in household enterprises
		126	Mining and quarrying for the market in household enterprises
		127	Making and processing goods for the market in household enterprises
		128	Construction activities for the market in household enterprises
		129	Other activities related to employment in household enterprises to produce goods
	13	*Employment in household enterprises to provide services*	
		131	Vending and trading of goods in household enterprises
		132	Providing paid repair, installation, maintenance and disposal in household enterprises
		133	Providing paid business and professional services in household enterprises
		134	Transporting goods and passengers for pay or profit in household enterprises
		135	Providing paid personal care services in household enterprises
		136	Providing paid domestic services
		139	Other activities related to employment in household enterprises providing services
	14	*Ancillary activities and breaks related to employment*	
		141	Activities ancillary to employment
		142	Breaks during working time within employment
	15	*Training and studies in relation to employment*	
		150	Training and studies in relation to employment
	16	*Seeking employment*	
		160	Seeking employment
	17	*Setting up a business*	
		170	Setting up a business
	18	*Travelling and commuting for employment*	
		181	Employment-related travel

Major division	Division	Group	Activity title
		182	Commuting
2	**Production of goods for own final use**		
	21		*Agriculture, forestry, fishing and mining for own final use*
		211	Growing crops and kitchen gardening, for own final use
		212	Farming of animals and production of animal products for own final use
		213	Hunting, trapping and production of animal skins for own final use
		214	Forestry and logging for own final use
		215	Gathering wild products for own final use
		216	Fishing for own final use
		217	Aquaculture for own final use
		218	Mining and quarrying for own final use
	22		*Making and processing goods for own final use*
		221	Making, processing food products, beverages and tobacco for own final use
		222	Making, processing textiles, wearing apparel, leather and related products for own final use
		223	Making, processing of wood and bark products for own final use
		224	Making, processing bricks, concrete slabs, hollow blocks, tiles for own final use
		225	Making, processing herbal and medicinal preparations for own final use
		226	Making, processing metals and metal products for own final use
		227	Making, processing of products using other materials for own final use
		229	Acquiring supplies and disposing of products and other activities related to making and processing goods for own final use
	23		*Construction activities for own final use*
		230	Construction activities for own final use
	24		*Supplying water and fuel for own final use*
		241	Gathering firewood and other natural products used as fuel for own final use
		242	Fetching water from natural and other sources for own final use
	25		*Travelling, moving, transporting or accompanying goods or persons related to own-use production of goods*
		250	Travelling, moving, transporting or accompanying goods or persons related to own-use production of goods
3	**Unpaid domestic services for household members**		
	31		*Food and meals management and preparation*
		311	Preparing meals/snacks
		312	Serving meals/snacks
		313	Cleaning up after food preparation/meals/snacks

Major division	Division	Group	Activity title
		314	Storing, arranging, preserving food stocks
		319	Other activities related to food and meals management and preparation
	32		*Cleaning and maintaining of own dwelling and surroundings*
		321	Indoor cleaning
		322	Outdoor cleaning
		323	Recycling and disposal of garbage
		324	Upkeep of indoor/outdoor plants, hedges, garden, grounds, landscape, etc.
		325	Tending furnace, boiler, fireplace for heating and water supply
		329	Other activities related to cleaning and upkeep of dwelling and surroundings
	33		*Do-it-yourself decoration, maintenance and repair*
		331	Do-it-yourself improvement, maintenance and repair of own dwelling
		332	Installation, servicing and repair of personal and household goods including ICT equipment
		333	Vehicle maintenance and repairs
		339	Other activities related to do-it-yourself decoration, maintenance and repair
	34		*Care and maintenance of textiles and footwear*
		341	Hand/machine-washing
		342	Drying textiles and clothing
		343	Ironing/pressing/folding
		344	Mending/repairing and care of clothes and shoes; cleaning and polishing shoes
		349	Other activities related to care of textiles and footwear
	35		*Household management for own final use*
		351	Paying household bills
		352	Budgeting, planning, organizing duties and activities in the household
		359	Other activities related to household management
	36		*Pet care*
		361	Daily pet care
		362	Using veterinary care or other pet care services (grooming, stabling, holiday or day care)
		369	Other activities related to pet care
	37		*Shopping for own household members*
		371	Shopping for/purchasing of goods and related activities
		372	Shopping for/availing of services and related activity
	38		*Travelling, moving, transporting or accompanying goods or persons related to unpaid domestic services for household members*
		380	Travelling, moving, transporting or accompanying goods or persons related to unpaid domestic services for household members
	39		*Other unpaid domestic services for household members*

Major division	Division	Group	Activity title
		390	Other unpaid domestic services for household members
4	**Unpaid caregiving services for household members**		
	41		*Childcare and instruction*
		411	Caring for children including feeding, cleaning, physical care
		412	Providing medical care to children
		413	Instructing, teaching, training, helping children
		414	Talking with and reading to children
		415	Playing and sports with children
		416	Minding children (passive care)
		417	Meetings and arrangements with schools and child care service providers
		419	Other activities related to childcare and instruction
	42		*Care for dependent adults*
		421	Assisting dependent adults with tasks of daily living
		422	Assisting dependent adults with medical care
		423	Assisting dependent adults with forms, administration, accounts
		424	Affective/emotional support for dependent adults
		425	Passive care of dependent adult
		426	Meetings and arrangements with adult care service providers
		429	Other activities related to care for dependent adults
	43		*Help to non-dependent adult household members*
		431	Feeding, cleaning, physical care for non-dependent adult household members including for temporary illness
		432	Affective/emotional support for non-dependent adult household members
		439	Other activities related to care for non-dependent adult household members
	44		*Travelling and accompanying goods or persons related to unpaid caregiving services for household members*
		441	Travelling related to care-giving services for household members
		442	Accompanying own children
		443	Accompanying dependent adults
		444	Accompanying non-dependent adult household members
	49		*Other activities related to unpaid caregiving services for household members*
		490	Other activities related to unpaid caregiving services for household members
5	**Unpaid volunteer, trainee and other unpaid work**		
	51		*Unpaid direct volunteering for other households*
		511	Unpaid volunteer household maintenance, management, construction, renovation and repair

Major division	Division	Group	Activity title
		512	Unpaid volunteer shopping/purchasing goods and services
		513	Unpaid volunteer childcare and instruction
		514	Unpaid volunteer care for adults
		515	Unpaid volunteer activities in enterprises owned by other households
		519	Other activities related to direct unpaid volunteering for other households
	52	*Unpaid community- and organization-based volunteering*	
		521	Unpaid volunteer work on road/building repair, clearing and preparing land, cleaning (streets, markets, etc.), and construction
		522	Unpaid volunteer preparing/serving meals, cleaning up
		523	Unpaid volunteer cultural activities, recreation and sports activities
		524	Unpaid volunteer office/administrative work
		529	Other activities related to community- and organization-based unpaid volunteering
	53	*Unpaid trainee work and related activities*	
		530	Unpaid trainee work and related activities
	54	*Travelling time related to unpaid volunteer, trainee and other unpaid work*	
		540	Travelling time related to unpaid volunteer, trainee and other unpaid work
	59	*Other unpaid work activities*	
		590	Other unpaid work activities
6	**Learning**		
	61	*Formal education*	
		611	School/university attendance
		612	Extra-curricular activities
		613	Breaks at place of formal education
		614	Self-study for distance education course work (video, audio, online)
		619	Other activities related to formal education
	62	*Homework, being tutored, course review, research and activities related to formal education*	
		620	Homework, being tutored, course review, research and activities related to formal education
	63	*Additional study, non-formal education and courses*	
		630	Additional study, non-formal education and courses
	64	*Travelling time related to learning*	
		640	Travelling time related to learning
	69	*Other activities related to learning*	
		690	Other activities related to learning
7	**Socializing and communication, community participation and religious practice**		
	71	*Socializing and communication*	

Major division	Division	Group	Activity title
		711	Talking, conversing, chatting
		712	Socializing/getting together/gathering activities
		713	Reading and writing mail (including email)
		719	Other activities related to socializing and communication
	72		*Participating in community cultural/social events*
		721	Participating in community celebrations of cultural/historic events
		722	Participating in community rites/events (non-religious) of weddings, funerals, births and similar rites-of-passage
		723	Participating in community social functions (music, dance, etc.)
		729	Other activities related to community participation
	73		*Involvement in civic and related responsibilities*
		730	Involvement in civic and related responsibilities
	74		*Religious practices*
		741	Private prayer, meditation and other spiritual activities
		742	Participating in collective religious practice
		749	Other activities related to religious practice
	75		*Travelling time related to socializing and communication, community participation and religious practice*
		750	Travelling time related to socializing and communication, community participation and religious practice
	79		*Other activities related to socializing and communication, community participation and religious practice*
		790	Other activities related to socializing and communication, community participation and religious practice
8	**Culture, leisure, mass-media and sports practices**		
	81		*Attending/visiting cultural, entertainment and sports events/venues*
		811	Attendance at organized/mass cultural events and shows
		812	Attendance at parks/gardens
		813	Attendance at sports events
		819	Other activities related to attendance at cultural, entertainment and sports events
	82		*Cultural participation, hobbies, games and other pastime activities*
		821	Visual, literary and performing arts (as hobby)
		822	Hobbies
		823	Playing games and other pastime activities
		829	Other activities related to cultural participation, hobbies, games
	83		*Sports participation and exercise and related activities*
		831	Participating in sports
		832	Exercising

Major division	Division	Group	Activity title
	84		*Mass media use*
		841	Reading for leisure
		842	Watching/listening to television and video
		843	Listening to radio and audio devices
		849	Other activities related to mass media use
	85		*Activities associated with reflecting, resting, relaxing*
		850	Activities associated with reflecting, resting, relaxing
	86		*Travelling time related to culture, leisure, mass-media and sports practices*
		860	Travelling time related to culture, leisure, mass-media and sports practices
	89		*Other activities related to culture, leisure, mass-media and sports practices*
		890	Other activities related to culture, leisure, mass-media and sports practices
9	**Self-care and maintenance**		
	91		*Sleep and related activities*
		911	Night sleep/essential sleep
		912	Incidental sleep/naps
		913	Sleeplessness
		919	Other sleep and related activities
	92		*Eating and drinking*
		921	Eating meals/snack
		922	Drinking other than with meal or snack
	93		*Personal hygiene and care*
		931	Personal hygiene and care
		932	Health/medical care to oneself
		939	Other activities related to personal hygiene and care
	94		*Receiving personal and health/medical care from others*
		941	Receiving personal care from others
		942	Receiving health/medical care from others
		949	Other activities related to receiving personal and health/medical care
	95		*Travelling time related to self-care and maintenance activities*
		950	Travelling time related to self-care and maintenance activities
	99		*Other self-care and maintenance activities*
		990	Other self-care and maintenance activities

Chapter Three

Summary of Findings

Chapter Three

Summary of Findings

3.0. Introduction

3.0.1 In the Time Use Survey (TUS) (January 2019-December 2019) for each member of age 6 years and above of the selected households, information on time use was collected covering a period of 24 hours starting from 4:00 AM on the day before the date of interview to 4:00 AM on the day of the interview. The estimates of participation rates in different activities in a day and average time spent in those activities in a day presented in this report are for persons of age 6 years and above. In this context the term day indicates the reference period of 24 hours on which information on time use was collected.

This Chapter is arranged in the following Sections:

- Section One: Household and Population
- Section Two: Type of days and type of informant
- Section Three: Participation and time spent in nine (9) different time use activities (Major divisions of the TUS activity classification)
- Section Four: Unpaid caregiving services for household members
- Section Five: Unpaid domestic services for household member
- Section Six: Learning activities
- Section Seven: Unpaid activities and paid activities
- Section Eight: SNA production activities and non-SNA production activities
- Section Nine: Travel time
- Section Ten: Self-care and maintenance activities

3.0.2 Presentation of the estimates of participation rate and average time spent in a day per person

(i) Participation rate: Participation rate in a day in any activity is defined as the percentage of persons of specific categories (say rural male of age 6 years and above, urban female of age 15-29 years, etc) performing that activity during the 24 hours of the reference period for which information on time use was collected in the survey.

Participation rate in activity 'A'$= \frac{number\ \ of\ persons\ \ participating\ \ \ in\ activity\ \ 'A'}{total\ \ number\ \ of\ per\ ons} * 100$

The reference period of 24 hours covered the time starting from 4:00 AM on the day before the date of interview to 4:00 AM on the day of the interview.

(ii) Estimates of average time spent in a day:

Estimates of average time spent in a day can be derived by the following approaches:

(a) Per participant: Average time spent in a day for any activity can be calculated by considering those who participated in the activity. This provides estimates of

average time spent in a day in an activity by those persons who are participating in that activity. Estimates of average time spent in a day in different activities derived by considering only the participants for those activities will not add up to 1440 minutes of the day. These estimates are referred to as **average time spent in a day per participant**.

(b) Per person: Average time spent in a day for any activity can be calculated by considering all the persons of a specific category (say, rural male, urban male of age 60 years and above, persons of age 6 years and above, etc.) irrespective of whether they performed the activities or not. By this approach, distribution of total time of 1440 minutes of a day per person belonging to that specific category in different activities can be derived and percentage share of the different activities in the total time of 1440 minutes of a day can be calculated. These estimates are referred to as **average time spent in a day per person**.

Method of deriving time spent per participant and per person:

1. **Average time spent per participant in an activity (say, activity A)**

$$\frac{total\ time\ spent\ by\ the\ participants\ in\ activity\ 'A'}{total\ number\ of\ persons\ participating\ in\ activity\ 'A'}$$

2. **Average time spent per person in an activity (say, activity A)**

$$\frac{total\ time\ spent\ by\ the\ participants\ in\ activity\ 'A'}{total\ number\ of\ persons}$$

In the titles of the Statements in Chapter Three as well as in the titles of the Tables in Appendix A, it has been mentioned whether the estimates of time spent in a day are presented **per participant** or **per person.**

This report mainly provides the average time (in minutes) spent in activities considering those who participated in the specific activity. However, to understand the distribution of total time of 1440 minutes in different activities in a day per person in the population of a specific category (say by males in rural areas of age 15-29 years), for some of the estimates, average time spent in a day per person has also been derived considering all the persons of that category irrespective of whether they performed the activity or not.

(iii) Estimates considering all the activities performed in a time slot and considering only the major activity in a time slot: In the Statements in Chapter Three, estimates of participation rate and average time spent per person in a day have been presented considering all the activities in the time slot. A note regarding this has been provided in the Statements. However, in the Statements for State/UT and in the Tables in Appendix A, estimates of participation rate have also been provided considering only the major activity in a time slot and the corresponding estimates of average time has also been presented considering the major activity by assigning all the time in the time slot against that major activity.

3.1 Section One: Household and Population

3.1.1 Estimates relating to Household and Population

3.1.1.0 In this Section, estimates relating to household and population are presented. It may be noted that the design of Time Use Survey was not aimed at estimating population. However, estimates of population provided in this report may be useful for combining the rates and ratios.

***3.1.1.1 Households and Population*:** Statement 1 presents the percentage distribution of households and persons in rural and urban areas obtained from TUS 2019. Since information on time use was collected for persons of age 6 years and above, in this Statement, percentage of persons of age 6 years and above in the population as obtained from the Time Use Survey is also given. It may be noted that in this report, no separate estimate for transgender has been provided considering the constraints of sample size and transgender has been included in persons. Number of villages/ blocks, households surveyed and persons enumerated for each State/ UT are given in Table 1 of the Appendix A. Percentage distribution of households and persons for each State/UT is given in Table 2 of Appendix A. In Statement 1.1, percentage of persons of age 6 years and above in the population derived on the basis of Time Use Survey is presented.

Statement 1: Percentage distribution of household and population in TUS 2019			**all-India**
Indicator	**rural**	**urban**	**rural+urban**
Percentage distribution of households	68.3	31.7	100.0
Percentage distribution of population between rural and urban sectors			
male	70.4	29.6	100.0
female	70.9	29.1	100.0
person	70.7	29.3	100.0
Percentage of persons of age 6 years and above			
male	84.2	88.5	85.5
female	85.6	89.2	86.7
person	84.9	88.8	86.0

3.2 Section Two: Type of days and Type of informant

3.2.1 Type of day

Type of day on which information of time use was collected from the persons was classified as ‘normal day’ or ‘other day. The normal days are the days on which a household member pursues mostly his/her routine activities whereas the day on which the routine activities of a household member are altered due to any reason, it is treated as ‘other day’. In Statement 2, percentage distribution of persons of age 6 years and above by type of the day on which information on time use was collected from them is presented.

Percentage distribution of persons of age 6 years and above by type of the day on which information on time use was collected is given in Statement 2.1 for each State/UT.

Statement 2: Percentage distribution of persons of age 6 years and above by type of the day on which information of time use was collected

all-India

Type of day	rural			urban			rural+urban		
	male	female	person	male	female	person	male	female	person
normal day	89.8	92.0	90.9	88.6	90.4	89.5	89.5	91.5	90.5
other day	9.7	7.6	8.7	10.9	9.1	10.0	10.1	8.1	9.1
all	100.0	100.0	100.0	100.0	100.0	100.0	100.0	100.0	100.0

Figures may not add up to 100 due to not reported cases of type of the day and rounding.
Reference: Appendix Table 3

3.2.2 Day of the week on which information on time use was collected

The distribution of the days of the week on which information on time use was collected from the members of the selected households is given in Statement 3 to have an idea about uniformity of the spread of the different days of the week in collection of information on time use.

Statement 3: Percentage distribution of persons of age 6 years and above by day of the week on which information on time use was collected

all-India

day of the week	rural			urban			rural+urban		
	male	female	person	male	female	person	male	female	person
Monday	14.3	14.5	14.4	14.3	14.4	14.4	14.3	14.4	14.4
Tuesday	14.6	14.6	14.6	14.2	14.6	14.4	14.5	14.6	14.5
Wednesday	14.3	14.5	14.4	14.7	14.7	14.7	14.5	14.6	14.5
Thursday	14.6	14.5	14.6	14.5	14.4	14.4	14.6	14.5	14.5
Friday	14.5	14.4	14.4	14.5	14.4	14.5	14.5	14.4	14.4
Saturday	14.1	14.0	14.0	14.0	13.8	13.9	14.1	14.0	14.0
Sunday	13.1	13.2	13.2	13.2	13.2	13.2	13.2	13.2	13.2
all	100.0	100.0	100.0	100.0	100.0	100.0	100.0	100.0	100.0

Figures may not add up to 100 due to not reported cases of day of the week and rounding
Reference: Appendix Table 3

3.2.3 Relationship of the informant with the household member for whom information on time use was collected

For any member of the selected household, information on time use was planned to be collected only from that household member. In some situations information was collected from other household members when the household member was not able to provide information or the household member could not be contacted even after best efforts. Only in extreme cases information was collected from a person who is not a member of the household but closely associated with the household to collect reliable information for the household member. If for a household member information is collected from more than one type of informants mentioned above, then the type of informant from whom bulk of the information was collected is considered as the informant. In Statement 4, distribution of the persons of age 6 years and above by the relationship of the informant with the person in respect of whom information on time use was collected is given. Percentage distribution of persons of age 6 years and above by relationship of the informant with the

household member for whom information on time use was collected is given in Statement 2.1 for each State/UT.

Statement 4: Percentage distribution of persons of age 6 years and above by relationship of the informant with the person in respect of whom information on time use was collected

all-India

relationship of the informant with the household member		**rural**			**urban**			**rural+urban**		
		male	**female**	**person**	**male**	**female**	**person**	**male**	**female**	**person**
informant is a household member	self	56.0	65.8	60.8	49.5	62.8	56.0	54.0	64.9	59.3
	other household members	43.1	33.4	38.3	49.3	36.1	42.9	45.0	34.2	39.7
informant is not a household member but is closely associated with the household		0.5	0.5	0.5	0.7	0.6	0.7	0.6	0.5	0.5

all		100.0	100.0	100.0	100.0	100.0	100.0	100.0	100.0	100.0

Note: Figures may not add up to 100 due to not reported cases and rounding.
Reference: Appendix Table 3

3.3 Section Three: Participation and time spent in nine (9) different time use activities (Major divisions of the TUS activity classification)

3.3.0 In the Time Use Survey of 2019, the activities reported by the respondents were codified following the International Classification of Activities for Time Use Statistics, 2016. In this Section, participation rates of the persons of age 6 years and above in different activities described as *major divisions* of the TUS *activity classification* and average time spent in those activities in a day are given. The nine (9) *major divisions* of the TUS activity classification used in collection of information on time use in this survey are as follows:

Major division code of the TUS activity classification	**Description of the activity**
1	Employment and related activities
2	Production of goods for own final use
3	Unpaid domestic services for household members
4	Unpaid caregiving services for household members
5	Unpaid volunteer, trainee and other unpaid work
6	Learning
7	Socializing and communication, community participation and religious practice
8	Culture, leisure, mass-media and sports practices
9	Self-care and maintenance

3.3.1 Participation rates in the activities for the persons of age 6 years and above

In Statement 5, percentage of persons who participated (i.e., participation rate) in different activities during the reference period of 24 hours is given. Estimates of percentage of persons who participated in different activities for each State/UT is given in Statement 5.1.

Statement 5: Percentage of persons participating in different activities in a day									all-India
Description of the activity	**rural**			**urban**			**rural+urban**

3.3.3 Average time spent in a day per person (considering all the persons irrespective of whether they participated in the activities or not)

In Statement 6, average amount of time spent in a day by persons participating in different activities are given. However, Statement 6 does not give the distribution of the total time (i.e., 1440 minutes) available in a day over different activities by the persons.

To derive the distribution of the total time in a day (i.e., 1440 minutes) in different activities per person, the estimates of average time have been obtained by considering all the persons irrespective of whether they performed the activities or not.

In Statement 7, distribution of total time of 1440 minutes in a day per person in different activities are presented considering all the persons irrespective of whether they performed the activities or not and the corresponding estimates for each State/UT are given in Statement 7.1. In Statement 8, percentage share of the total time of a day in different activities are presented considering all the persons irrespective of whether they performed the activity or not. In Figures 10.1 and 10.2, percentage share of different activities in the total time in a day in India for males and females are presented respectively.

Statement 7: Average time (in minutes) spent in different activities in a day per person

3.3.5 Time spent in a day by persons of different age groups participating in the activities

In Statement 10, average amount of time spent in a day in different activities per participant of age groups 15-29 years, 15-59 years and 60 years and above in those activities are presented. In Figures 11.1 to 19.2 percentage of persons of age groups 15-29 years, 15-59 years and 60 years and above participating in different activities and average time spent per day per participant in those activities are given. In Statement 6.1, average amount of time spent in a day in different activities per participant of ages 15-29 years, 15-59 years and 6 years and above are given for each State/UT.

3.3.8 Participation rates in activities for persons with different broad usual principal activity statuses

Persons have been classified in different broad usual principal activity status following the major time criteria considering the activities pursued by the persons during the last 365 days. The broad usual principal activity statuses are worker, unemployed, and not in labour force. Worker and unemployed constitutes the labour force. In Statement 13, percentage of persons who participated in different activities of the TUS activity classification is given for each broad usual principal activity status.

Statement 13: Percentage of persons participating in different activities in a day for each broad usual principal activity status

3.4 Section Four: Unpaid caregiving services for household members

3.4.0 Unpaid caregiving services for household members are important for the purpose of understanding the needs of care within the households. The different categories of unpaid caregiving services for household members corresponding to which estimates are presented in this Section are:

- Childcare and instruction
- Care for dependent adults
- Help to non-dependent adult household members
- Other activities related to unpaid caregiving services for household members
- Travelling and accompanying goods or persons related to unpaid caregiving services for household members
- All care activities

3.4.1 Participation rates in unpaid caregiving services for household members by persons of age 6 years and above

In Statement 15, percentage of persons participating in different unpaid caregiving services for household members is presented.

Statement 15: Percentage of persons participating in a day in different unpaid caregiving services for household members

all-India

Description of unpaid caregiving services	male	female	person
		rural	
Childcare and instruction	13.8	27.2	20.4

3.6 Section Six: Learning activities

The coverage of learning activities includes pre-primary, primary, secondary, technical and vocational, post-secondary and tertiary education, etc. It also covers non-formal education and courses (literacy and other special programmes for those who have no opportunity to attend school, private studies, research, courses taken in relation to hobbies and recreational games, sports, courses on Yoga, etc), and travel time related to learning.

3.6.1 Participation in learning and time spent in learning

In Statement 19, percentage of persons of age 6-14 years and 15-29 years participating in learning activities and average time (in minutes) spent by those who are participating in learning activities are given.

Statement 19: Percentage of persons participating in learning activities and average time (in minutes) spent in a day per participant in learning activities

all-India

category of persons	percentage of persons participating in leaning activities		average time (in minutes) spent in a day per participant in learning activities

Note: The estimates have been calculated considering all the activities in a time slot

3.7 Section Seven: Unpaid activities and paid activities

This Section gives the participation rates and time spent in a day in paid and unpaid activities. The list of activities used in the classification of paid activities and unpaid are as follows:

Unpaid activities
care for children, sick, elderly, differently-abled persons in own households
production of other services for own consumption
production of goods for own consumption
voluntary work for production of goods in households
voluntary work for production of services in households
voluntary work for production of goods in market/non-market units
voluntary work for production of services in market/non-market units
unpaid trainee work for production of goods
unpaid trainee work for production of services
other unpaid work for production of goods
other unpaid work for production of services

Paid activities
self-employment for production of goods
self-employment for production of services
regular wage/ salary for production of goods
regular wage/ salary for production of services
casual labour for production of goods
casual labour: for production of services

3.7.1 Participation in unpaid and paid activities

In Statement 20, percentage of persons participating in unpaid activities, paid activities and residual other activities in a day are presented and average time (in minutes) spent in a day by those who participated in such activities are given in Statement 21. Corresponding estimates for each State/UT are given in Statement 11.1 and Statement 13.1, respectively. It may be noted that activities under 'self development/ self care/ self maintenance, etc.' are 'residual other activities'. Graphical presentation of the percentage of persons participating in unpaid activities and paid activities and average time (in minutes) spent in a day per participant in such activities are given in Figures 22.1 and 22.2. It may be noted that residual other activities include all other activities which are not classified as either paid activities or unpaid activities such as self-care and maintenance activities, learning,

culture, leisure, mass-media and sports practices, socialising and communication, community participation and religious practice, etc.

Figure 22.1: Percentage of persons participating in a day in unpaid activities, paid activities and residual other activities

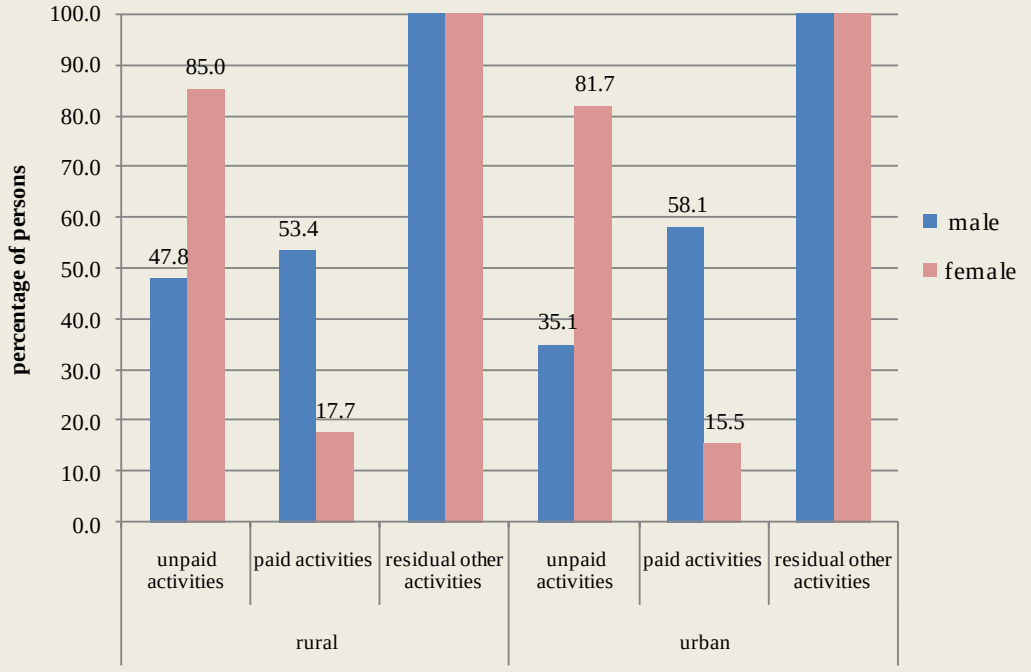

Figure 22.2: Average time (in minutes) spent in a day per participant in unpaid activities, paid activities and residual other activities

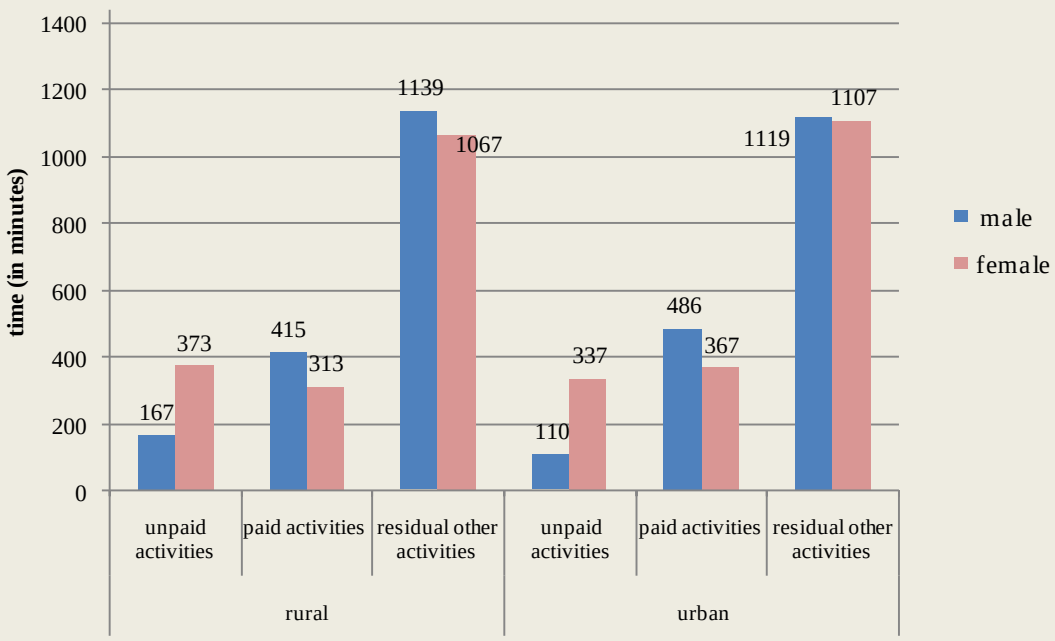

3.7.2 Average time spent per day in paid and unpaid activities by considering all the persons irrespective of whether they participated in the activities or not

In Statement 21, average amount of time spent in a day per participant in unpaid activities, paid activities and the residual other activities are given. However, Statement 21 does not give the distribution of the total time (i.e., 1440 minutes) available in a day by these activities.

To derive the distribution of total time in unpaid activities, paid activities and residual other activities by the population, the estimates of average time is obtained by considering all the persons irrespective of whether they performed the activities or not.

In Statement 22, distribution of total time of 1440 minutes in a day per person in unpaid activities, paid activities and residual other activities are presented considering all the persons irrespective of whether they performed the activity or not and the corresponding percentage share is given in Statement 23. In Statement 12.1 time spent in a day per person in unpaid activities, paid activities and residual other activities are presented for each State/UT

In Figure 23 percentage share of paid and unpaid activities in the total time spent in a day in paid and unpaid activities by the persons are presented.

3.7.3 Participation in paid and unpaid activities by persons of different age groups

In Statement 24, percentage of persons participating in unpaid and paid activities are presented and average time (in minutes) spent in a day spent by those who participated in such activities are given in Statement 25 in respect of persons of age 15-29 years, 15-59

years and 60 years and above. Corresponding estimates for the persons of age 15-29 years, 15-59 years and persons of age 6 years and above for each State/UT are given in Statement 11.1 and 13.1, respectively. Graphical presentation of the percentage of persons participating in unpaid and paid activities and average amount of time spent per participant in those activities in a day are given for all-India in Figures 24.1 to 25.2.

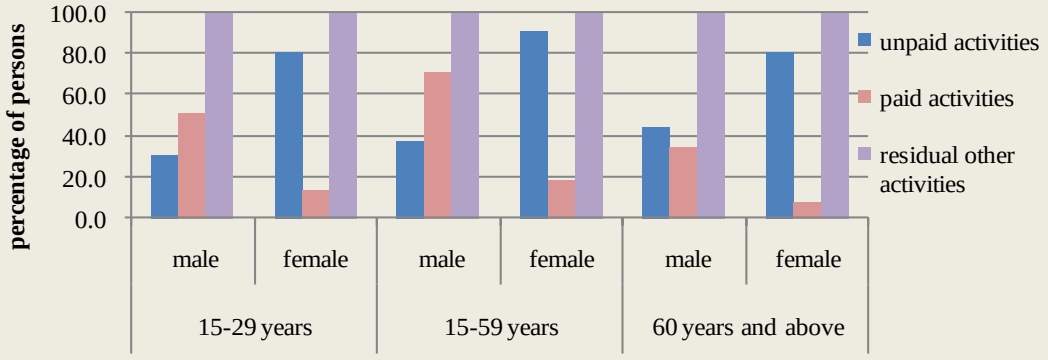

Figure 25.2: Average time (in minutes) spent in a day per participant of different age groups in unpaid activities, paid activities and residual other activities: urban

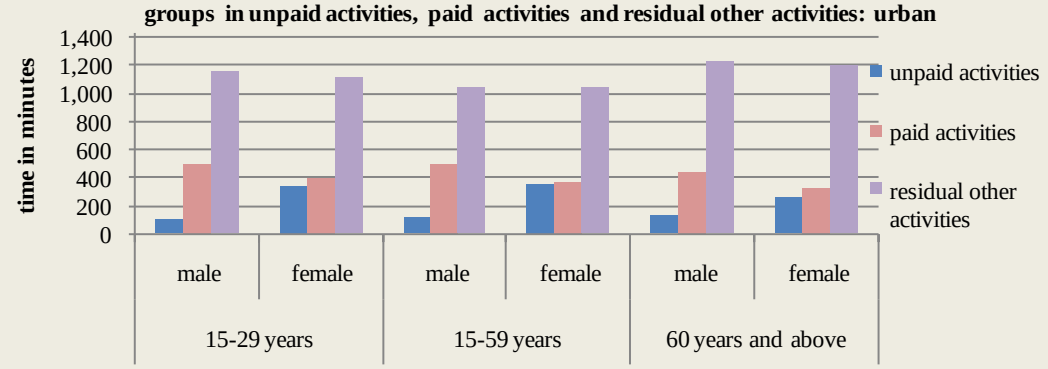

3.7.4 Average time spent per day in unpaid and paid activities by considering all the persons in the age groups 15-29 years, 15-59 years and 60 years and above irrespective of whether they participated in the activities or not

In Statement 25, average amount of time spent in a day per participant in the age groups 15-29 years, 15-59 years and 60 years and above in unpaid activities, paid activities and residual other activities are given. However, Statement 25 does not give the distribution of the total time (i.e., 1440 minutes) available in a day by these activities.

To derive the distribution of total time in unpaid activities, paid activities and residual other activities by the population in these age groups, the estimates of average time is obtained by considering all the persons in that age group irrespective of whether they performed the activities or not.

In Statement 26, distribution of total time of 1440 minutes in a day per person for each of these age groups in unpaid activities, paid activities and residual other activities are presented considering all the persons in that age group irrespective of whether they performed the activity or not and the corresponding percentage share is given in Statement 27. In Statement 12.1, distribution of total time of 1440 minutes in a day per person of age 15-29 years, 15-59 years and persons of age 6 years and above are given for each State/UT.

In Figures 26 and 27, percentage share of paid and unpaid activities in the total time spent in a day in paid and unpaid activities by the persons in these age groups are presented for rural and urban areas respectively.

3.8 Section Eight: SNA production activities and non-SNA production activities

The activities included in the coverage of System of National Accounts (SNA) production boundary are termed as SNA production activities and those which are outside the SNA production boundary but within the SNA general production boundary are termed as non-SNA production and the rest are termed as residual other activities. From the information collected in the TUS 2019, the following activities have been classified as SNA production, non-SNA production and residual other activities.

SNA production:
Employment in corporations, government and non-profit institutions
Production of goods for own final use
Employment in household enterprises to produce goods
Employment in household enterprises to provide services
Ancillary activities and breaks related to employment
Training and studies in relation to employment
Employment-related travel
Unpaid trainee work and related activities
Unpaid direct volunteering for other households for production of goods or for production of goods/services for market/non-market units
Unpaid community- and organization-based volunteering for production of goods or for production of goods/services for market/non-market units
Other unpaid work activities (other than those which are already covered in SNA or covered in non-SNA production)
Non-SNA production:
Unpaid domestic services for household members
Unpaid caregiving services for household members
Unpaid direct volunteering for other households for production of services for the households
Unpaid community- and organization-based volunteering for production of services for the households
Other activities
Seeking employment
Setting up a business
Commuting
Learning
Socializing and communication, community participation and religious practice
Culture, leisure, mass-media and sports practices
Self-care and maintenance

3.8.1 Participation in SNA production and non-SNA production activities

In Statement 28, percentage of persons participating in SNA production activities and non-SNA production activities in a day are presented and average amount of time (in minutes) in a day spent by those who participated in such activities are given in Statement 29. Graphical presentation of the percentage of persons participated in unpaid and paid activities and average amount of time spent are given in Figures 28.1 and 28.2.Corresponding estimates for each State/UT are given in Statement 15.1.

Statement 28: Percentage of persons participating in SNA production, non-SNA production and residual other activities in a day

all-India

Description of the activity	male	female	person

3.8.2 Average time spent per day in SNA production and non-SNA production by considering all the persons irrespective of whether they participated in the activities or not

In Statement 29, average amount of time spent in a day per participant in SNA production, non-SNA production and residual other activities are given. However, Statement 29 does not give the distribution of the total time (i.e., 1440 minutes) available in a day by these activities. It may be noted that SNA production activities include both paid activities and unpaid activities while all the non-SNA production activities are covered under unpaid activities.

To derive the distribution of total time in SNA production, non-SNA production and residual other activities by the population, the estimates of average time is obtained by considering all the persons irrespective of whether they performed the activities or not.

In Statement 30, distribution of total time of 1440 minutes in a day per person in SNA production, non-SNA production and residual other activities are presented considering all the persons irrespective of whether they performed the activity or not and corresponding percentage share is given in Statement 31. Corresponding estimates for each State/UT are given in Statement 17.1. In Figure 29, percentage share of SNA production activity and

non-SNA production activity in the total time spent in a day in SNA production activity and non-SNA production activity by the persons are presented

3.8.3 Participation in SNA production and non-SNA production activities by persons of different age groups

In Statement 32, percentage of persons of participating in SNA production, non-SNA production and residual other activities are given and average amount of time (in minutes) spent in a day by those who participated in such activities are given in respect of persons of age 15-29 years, 15-59 years and 60 years and above in Statement 33. Corresponding estimates for each State/UT for persons of age 15-29 years, 15-59 years and 6 years and above are given in Statement 15.1. Graphical presentation of the percentage of persons participating in SNA production, non-SNA production and residual other activities and average amount of time spent per participant in those activities in a day are given in Figures 30.1 and 31.2.

Figure 30.1: Percentage of persons of different age groups participating in SNA production, non-SNA production and residual other activities: rural

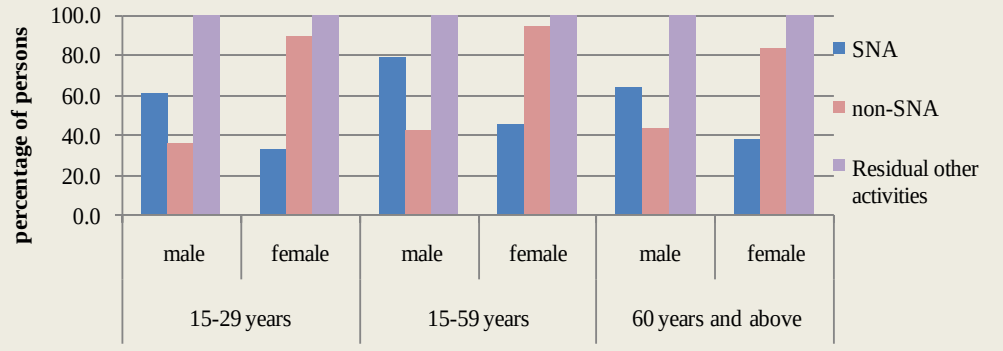

Figure 30.2: Average time (in minutes) spent in a day per participant of different age groups in SNA production, non-SNA production and residual other activities: rural

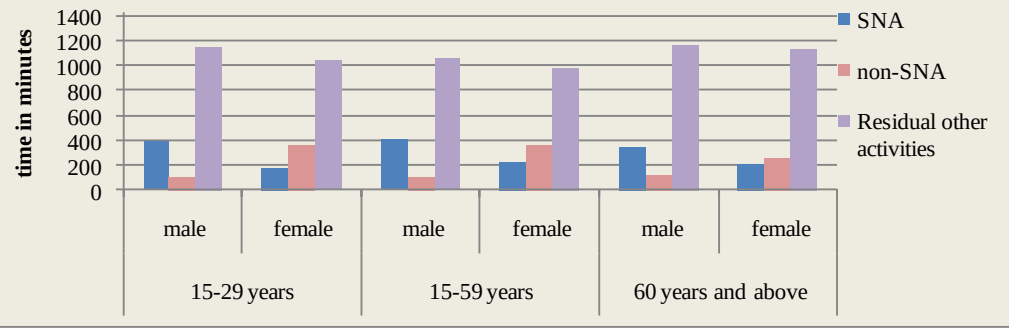

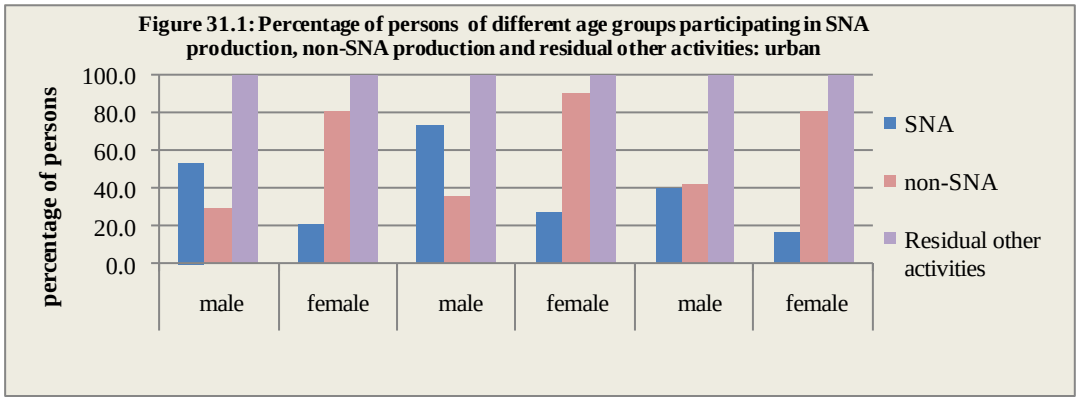

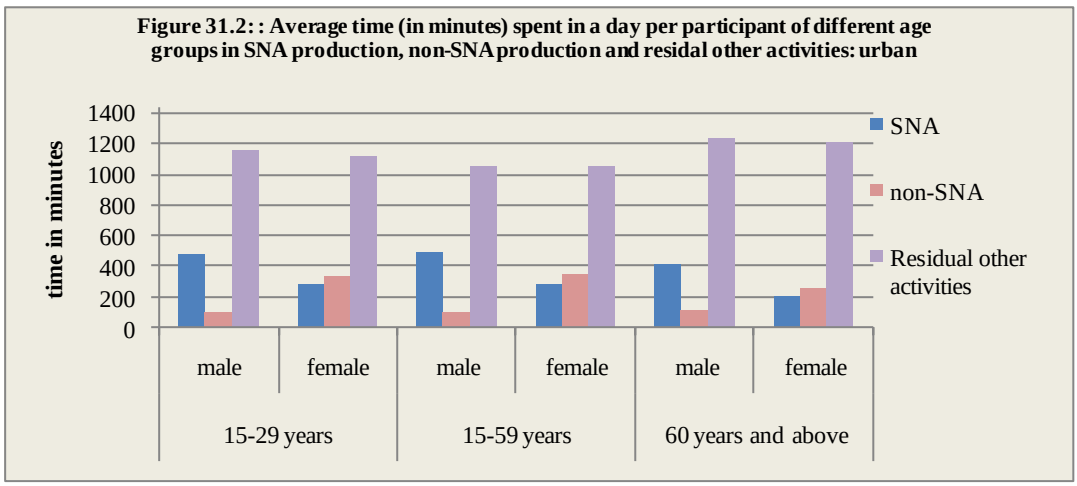

3.8.4 Average time spent per day in SNA production and non-SNA production by considering all the persons in the age groups 15-29 years, 15-59 years and 60 years and above irrespective of whether they participated in the activities or not

In Statement 33, average amount of time spent in a day per participant in the age groups 15-29 years, 15-59 years and 60 years and above in SNA production, non-SNA production and the residual other activities are given. However, Statement 33 does not give the distribution of the total time (i.e., 1440 minutes) available in a day by these activities.

To derive the distribution of total time in SNA production, non-SNA production and residual other activities by the population in these age groups, the estimates of average time is obtained by considering all the persons in that age group irrespective of whether they performed the activities or not.

In Statement 34, distribution of total time of 1440 minutes in a day per person for each of these age groups in SNA production, non-SNA production and residual other activities are presented considering all the persons in that age group irrespective of whether they performed the activity or not and the corresponding percentage distribution is given in Statement 35. Corresponding estimates for each State/UT persons of age 15-29 years, 15-59 years and 6 years and above are given in Statement 17.1. In Figures 32 and 33 percentage share of SNA production, non-SNA production in the total time spent in a day in production, non-SNA production by the persons in these age groups are presented for rural and urban areas respectively.

3.8.5 Participation in unpaid SNA production and paid activities

SNA production activities include both paid activities and unpaid activities while all the non-SNA production activities are covered under unpaid activities. To understand the extent of paid and unpaid work in SNA activities, percentage of persons participating in unpaid SNA production, non-SNA production and paid activities are given in Statement 36 and, average amount of time (in minutes) in a day spent by those who participated in such activities are given in Statement 37. Corresponding estimates for each State/UT are given in Statement 17.1.

Note: The estimates have been calculated considering all the activities in a time slot

3.9 Section Nine: Travel time

Travelling is included as an activity in all the nine major Divisions of the TUS activity classification as follows:

- Travelling and commuting for employment
- Travelling, moving, transporting or accompanying goods or persons related to own-use production of goods
- Travelling, moving, transporting or accompanying goods or persons related to unpaid domestic services for household members
- Travelling and accompanying goods or persons related to unpaid caregiving services for household members
- Travelling time related to unpaid volunteer, trainee and other unpaid work
- Travelling time related to learning
- Travelling time related to socializing and communication, community participation and religious practice
- Travelling time related to culture, leisure, mass-media and sports practices
- Travelling time related to self-care and maintenance activities

In this Section, average time spent in a day for travelling in the total time in a day per person (i.e., considering all the persons irrespective of whether they travelled or not) and percentage share of travel time in total time of a day is presented in Statement 40.

Statement 40: Average time (in minutes) spent in a day per person different age groups in travelling

all-India

3.10 Section Ten: Self-care and maintenance activities

Self-care and maintenance activities refer to activities that are required by the persons in relation to their biological needs, such as sleeping, eating, drinking, personal hygiene and care, etc.

In this Section, share of time in self-care and maintenance, like sleeping, eating and drinking, personal hygiene and care, etc., in the total time in a day per person of age 6 years and above (i.e., considering all the persons of age 6 years and above irrespective of whether they travelled or not) is presented in Statement 41.

Statement 41: Average time (in minutes) spent in a day per person different age groups in self-care and maintenance activities

all-India

type of self-care and maintenance activities	average time (in minutes) spent in a day per person			percentage share of time spent in self-care and maintenance activities in total time of a day		
	male	female	person	male	female	person

Note: The estimates have been calculated considering all the activities in a time slot

Estimates for each State/UT

State/UT level estimates

Statement No.	Title
1.1	Percentage of population of age 6 years and above for each State/ UT
2.1	Percentage distribution of persons of age 6 years and above by relationship of the informant with the household member
3.1	Percentage of persons participating in a day in activities of major divisions of TUS activity classification as major activity (considering only the major activity of the time slots)
4.1	Minutes spent in a day on an average per participant in the activities of major divisions of TUS activity classification as a major activity (considering only the major activity of the time slots)
5.1	Percentage of persons participating in a day in activities of major divisions of TUS activity classification irrespective of whether it is a major activity or not (considering all the activities in a time slot)
6.1	Minutes spent in a day on an average per participant in the activities of major divisions of TUS activity classification irrespective of whether it is a major activity or not (considering all the activities in a time slot)
7.1	Minutes spent in a day on an average per person in the activities of major divisions of TUS activity classification irrespective of whether it is a major activity or not (considering all the activities in a time slot)
8.1	Percentage of persons participating in a day in self development activities, unpaid activities and paid activities as a major activity (considering only the major activity of the time slots)
9.1	Minutes spent in a day on an average per participant in self development activity, unpaid activities and paid activities as a major activity (considering only the major activity of the time slots)
10.1	Minutes spent in a day on an average per person in self development activity, unpaid activities and paid activities as a major activity (considering only the major activity of the time slots)
11.1	Percentage of persons participating in a day in self development activity, unpaid activities and paid activities irrespective of whether it is a major activity or not (considering all the activities in a time slot)
12.1	Minutes spent in a day on an average per person in self development activity, unpaid activities and paid activities irrespective of whether it is a major activity or not (considering all the activities in a time slot)
13.1	Minutes spent in a day on an average per participant in self development, unpaid activities and paid activities irrespective of whether it is a major activity or not (considering all the activities in a time slot)

Statement No.	Title
14.1	Percentage of persons and minutes spent in a day on an average per participant in SNA production/Non-SNA production/residual other activities where the activity was a major activity (considering only the major activity of the time slots)
15.1	Percentage of persons and minutes spent in a day on an average per participant in SNA production/Non-SNA production/residual other activities irrespective of whether it is a major activity or not (considering all the activities in a time slot)
16.1	Percentage of persons and minutes spent in a day on an average per person/per participant of different age groups where the activity was a major activity (considering only the major activity of the time slots)
17.1	Percentage of persons and minutes spent in a day on an average per person/per participant of different age groups irrespective of whether the activity was a major activity or not (considering all the activities in a time slot)
